# LETTER OF SUBMITTAL

The Commonwealth of Massachusetts

Office of the Secretary

Division of Vital Statistics

Boston, December 4, 1962

*To the Honorable Senate and House of Representatives:*

I have the honor to submit herewith, as required by Chapter 46, Section 21, and Chapter 208, Section 47, of the General Laws, the one hundred and nineteenth annual report on statistics of births, marriages, deaths and divorces in Massachusetts for the calendar year 1960. Births, marriages and deaths are reported monthly; births, for each town and city containing not more than ninety thousand inhabitants, not later than sixty days, and each city containing more than ninety thousand inhabitants, not later than ninety days, following every month in which births occur; marriages, on or before the tenth day of the second month following the month in which marriages are solemnized; deaths, on or before the tenth day of every month; and divorces, annually, in February, for the last preceding calendar year.

The editorial review and the method of presentation of the statistical data were prepared by W. Lawrence McNeil, State Registrar, in charge of the Division of Vital Statistics. The statistical tables were prepared under the direction of Anne C. Butler, Statistician, and Ruth H. Tenanty, Principal Statistical Clerk of the division. The exhibition of tabular results is restricted to such as are plainly of practical utility within the meaning of the statute by authority of which the tables are prepared.

Respectfully submitted,

Kevin H. White,

*Secretary of the Commonwealth.*

### INTRODUCTION

*History.*

**Death Registration.** — Massachusetts was one of the first colonies to recognize the importance of the registration of vital statistics, and as early as 1639 required registration of births, marriages and deaths; in 1842 statutes required copies to be filed with the Secretary of the Commonwealth. In 1880 the registration area for deaths recognized by the United States Bureau of the Census, i.e., the States, and cities in other States, effectively enforcing satisfactory registration laws of all deaths registered, included but two States, Massachusetts and New Jersey, the District of Columbia, and a number of cities in nonregistration States.

During the period 1841 to 1960 inclusive, 4,929,602 copies of deaths have been received, filed, and tabulated in the Division of Vital Statistics. The original records are on file in the cities, towns and States in which the events occurred and copies in the city and town given as the residence of the deceased at the time of death. Chapter 439, Acts of 1945, provides that in cases of burial of war veterans in a city or town other than the place of death or residence, a copy of the death certificate shall also be filed with the Clerk of the place of burial.

**Purpose.** — Death registration often gives the first intimation of pestilential disease, permitting health officers to attack epidemics in their incipiency. It serves as evidence in the inheritance of property and in the settlement of life insurance. It is useful in preventing crime through the restriction placed upon the disposal of dead human bodies, and insures a permanent and uniform record of the death of each individual for all purposes.

**Importance of Death Records.** — Where proof concerning death is needed:

1. To prove the fact of death: For life-insurance claims; for liquidation of estates.
2. To prove facts about the deceased: For tracing ancestry; for names of husband or wife, and parents; for information on circumstances and cause of death; for age, sex, and race; for recording date and place of interment.
3. To prove date of death: For settlement of pensions; for insurance adjustments; for general legal use.

**Mortality Statistics.** — Mortality statistics, or statistics of deaths, are useful in showing the extent and rate of change in population produced by deaths; the average duration of life, the relative frequency with which the several causes produce death, and for their service in creating an interest in public health administration and securing support for sanitary measures. In comparison with birth statistics they give useful information regarding population increase or decrease. Mortality statistics, however, cannot be used as an index of the prevalence of certain diseases, because there is no fixed ratio between sickness and fatality. Only cases of fatal sickness or disease are given, while morbidity statistics include all cases, whether fatal or not.

**Source of Data.** — Mortality statistics are based upon original data obtained by the registration of deaths, which is accomplished by the filing of a standard death certificate with the local Board of Health.

The responsibility for seeing that a certificate is properly made out and filed rests with the undertaker, who is required by law to present a satisfactory certificate of death before he may obtain a permit to remove or bury a body. The local boards of health are required to transmit the death certificates to the city or town clerks who in turn record the deaths and are required to transmit certified copies to the Secretary of the Commonwealth on or before the tenth day of the month following that in which the deaths occurred. Hospitals and other institutions are required to obtain, when persons are received, the facts which are required for record in the event of the deaths of such persons. Chapter 604, Acts of 1949, relates to the burial or other disposition of the bodies of veterans.

**Death Rates and Their Comparability.** — The death rates given in this report are based upon the comparison of total deaths with the aggregate population. They are usually expressed in terms of the number of deaths per 1,000 population, and are calculated by dividing the total number of deaths by the population in thousands. This means that death rates vary with the character of the population and each element has its relation to the rate of mortality, and therefore, for comparison with other States or countries, the make-up of the population must be considered. The death rate per 1,000 males is generally higher than the rate per 1,000 females. Hence, a State having a relatively larger female population than another will normally show a lower death rate and a community where the very young or old predominate will show a higher rate than a community made up largely of young adults. Rates will also vary with the color and nationality of the inhabitants.

Factors which seriously affect the comparability of the death rates of different communities are: (1) race composition; (2) the social, marital, and economic status of the people; (3) employment; (4) migration; and (5) the birth rate.

**Allocation.** — Deaths are charged to the place of event and also are allocated to the place of residence of the deceased. This insures as near a true rate as possible and has a marked effect on municipalities which are large hospital centers. The usual place of residence has been used as a basis for all deaths occurring outside the State as well as for those in the State. For purposes of allocation former residents of Massachusetts who have died in other States, after an absence from Massachusetts of more than one year, are considered nonresidents. Residents of other States who have resided in Massachusetts for more than one year are

considered as residents except in the case of institutions and jails. Such persons are regarded as temporary residents of these places since they did not voluntarily enter with the intention of remaining and without doubt would have returned, if discharged, to their usual residence. Accidental deaths have been treated in the same manner as those caused by sickness. Also, those deaths due to violence have been allocated to the place of occurrence (see Table 15). The foregoing outline does not by any means cover all cases that may and will arise but will serve as an explanation of the method used in preparation of allocated tables.

**Number of Deaths and Death Rates.** — There was an increase of 1,785 in the number of deaths occurring in the State during the calendar year 1960, the total number being 57,197 as compared with 55,412 deaths in 1959. Based on the estimated population of July 1, 1960, of 5,160,030 these deaths correspond to a rate of 11.8 per 1,000 population. The rate for 1959 was 11.1. Deaths of residents of Massachusetts numbered 56,560, resulting in a death rate of 11.0 per 1,000 inhabitants.

During the ten-year periods, from 1941 to 1950, inclusive, the average death rate of the Commonwealth was 11.4 and from 1951 to 1960, inclusive, 11.0.

**Sex.** — Of the 56,560 resident deaths in 1960, 30,359, or 53.7 per cent, were males, the percentage in 1959 being 53.0. The proportion of males in the living population, as shown by the United States Census of 1960, was 48.9 per cent. Expressed as a ratio, there were 1,158 deaths of males per 1,000 deaths of females in 1960, as compared with 1,129 in 1959, 1,118 in 1958, 1,144 in 1957 and 1,148 in 1956.

Table 3 shows that the death rate of males has been consistently greater than the death rate of females. The death rate of the sexes has fluctuated considerably, reaching the maximum in 1918, when the difference was 3 per 1,000.

**Age.** — Of the 56,560 deaths in 1960 of residents of the State, 2,492 or 4.4 per cent were of infants under 1 year of age. The rates for infant deaths in previous years were 4.8 per cent in 1959 and an average of 4.7 per cent for the five years from 1954 to 1958, 4.5 per cent for the five years from 1949 to 1953 and 5.3 per cent for the five years from 1944 to 1948. A more detailed discussion of infant mortality may be found under *Infant Mortality*.

**Sex and Age.** — The death rate of adult males might be expected to exceed the rate of adult females, because of the more dangerous occupations of the males, but the excess in the death rate of male infants as compared with female infants has never been satisfactorily explained. Of the 2,492 decedents under 1 year of age in 1960, 1,500, or 60 per cent, were males. The ratio of male to female deaths among the higher age periods fluctuated somewhat. The proportion of male deaths was the larger from 1 year of age up to and including the age period 75 to 79 years. From the age of 75 years and upward the number of deaths of females exceeded the deaths of males including the reputed centenarians, numbering 30 of whom 6 were males and 24 were females. The excess of females in the population 65 years of age and over is so great that even though their mortality at each age period is below that of males, the absolute number of deaths is greater. The ratios of male deaths per 1,000 deaths of females at the various age periods in the four years 1957–1960 are shown in Table 5.

Among the 30,359 male decedents in 1960, 1,500, or 4.9 per cent, were under 1 year of age; among the 26,201 female decedents, 992, or 3.8 per cent, were under 1 year of age; and among the decedents of both sexes, 4.4 per cent were under 1 year of age (see Table 7).

**Marital Condition.** — Not quite one-half (45.9 per cent) of the decedents 15 years of age and over, whose marital condition was reported in 1960 were married, 15.4 per cent were single, 35.9 per cent were widowed, 2.7 per cent were divorced and .2 per cent were unknown. Among the male decedents 59.3 per cent were married, 14.4 per cent were single, 23.0 per cent were widowed, 3.2 per cent were di-

vorced and .2 per cent were unknown. Among the female decedents 30.5 per cent were married, 16.6 per cent were single, 50.7 per cent were widowed, 2.1 per cent were divorced, and .1 per cent were unknown. No precise study of the bearing of marital condition on mortality statistics can be made, however, without a detailed statement of the age distribution of the population. The age groups used in the census statistics do not coincide with the age groups used in the tabulation of death statistics, so that the two sets of figures cannot be used together. Table 6 shows the number of deaths of males and females 15 years of age and over by marital condition.

**Seasonal Distribution of Deaths.** — The largest number of deaths during any month occurred in February (5,635) and the next largest number in December (5,552) and January (5,315). Since the months are not of equal length, the monthly incidence must be reduced to a uniform basis. The average daily number of deaths for 1960 was 155. The months showing the highest average for the year were February 194, January 171, and December 169. Table 8 shows the number of deaths in each month of 1960, in counties, and in municipalities having over 50,000 inhabitants in 1960.

*Infant Mortality.*

Much credit is due to physicians, hospitals, public health officials and mothers for the gratifying results obtained in their campaign against infantile diseases. The present low rate of infant mortality, together with the steadily declining rate over a long period of years, is largely due to the constantly improving methods of infant feeding and the continued developments in community and home sanitation.

The infant mortality for residents of the State in 1960 was 21.0 per 1,000 live births. With a few exceptions, this rate has been moving steadily downward being largely due to the reduction in deaths from gastro-intestinal, respiratory and communicable diseases. Reference to Table 26, shows in striking manner the remarkable reduction in infant mortality, actual decrements without regard for increase in the number of births and without regard for increase in population.

In the ten years from 1951 to 1960, there has been an increase of 14,720 or 14.5 per cent in the number of live births registered in the State. During the same period there has been an increase of 4,713 or 21.2 per cent in the number of live births registered in Boston, while for the remainder of the State, the number of births registered increased 19.4 per cent. In 1960, deaths of Boston residents under 1 year of age numbered 376 or 24.1 per 1,000 live births. The rates for previous years were 25.3 in 1959, 25.6 in 1958, 24.6 in 1957, and 27.6 in 1956. The infant mortality rates for the State, exclusive of Boston, decreased from 30.1 per 1,000 live births in 1946 to 21.8 in 1960, as compared with a decrease in Boston from 34.8 in 1946 to 24.1 in 1960 (see Table 26).

Deaths under four weeks and also under one year of age in each municipality are shown in Table 22.

The infant mortality rates in municipalities having 15,000 or more inhabitants in 1960 are shown for the years 1953 to 1960 in Table 24.

The highest proportion of deaths occurs in the early period of infancy and especially is this true of the first few days. In 1960, 1,724 deaths occurred in the first week, constituting 69.2 per cent of all deaths under 1 year of age. On the first day the percentage of deaths (43.3 per cent) was higher than on any other day. In the first four weeks of life there were 1,893 deaths, or 76.0 per cent of all infant deaths.

In the first three months there were 2,170 deaths, or 87.1 per cent of all infant deaths. Ninety-five and one-tenth per cent of the infant deaths occurred in the first half of the year.

Over three-fourths, 79.1 per cent of the 1,724 babies who died less than one week after birth, died of immaturity, postnatal asphyxia and atelectasis, malformations, or injuries received at birth. Of the 1,592 babies who died from these causes before reaching the age of 1 year, 57.1 per cent died in less than one day, 85.6 per cent died in less than one week, and 91.6 per cent died in less than four weeks.

Diseases of the digestive system, formerly important factors in causing infant deaths, claimed 49 or 2.0 per cent of the babies who died before reaching 1 year of age. Twenty and four-tenths per cent of these deaths were from diarrhea and enteritis which has shown a remarkable decrease since 1900.

The largest number of deaths of infants is due to developmental and wasting diseases, and the figures indicate a reduction in infant mortality due to these causes, — from 24.1 deaths per 1,000 live births in 1933 to 3.5 in 1960. Respiratory diseases also caused a considerable number of deaths. The number of infant deaths from bronchopneumonia has fluctuated since 1956 when there were 79 infant deaths from this cause, 71 in 1957, 99 in 1958, 91 in 1959 and 87 in 1960. The principal causes of infant deaths for the years 1956 to 1960 are shown in Table 28.

*Causes of Death.*

**Sources of Error in Mortality Statistics.** — The chief element of error in mortality statistics lies in the inaccuracy of the statement of the cause of death as reported by the attending physician, who may not have been in a position to feel reasonably certain as to the nature of the terminal illness. Statements of cause of death are often incomplete as a result of the unintentional failure of the physician to state all the morbid conditions known to him which resulted in the death. Again, the physician sometimes fails to enter on the death certificate a qualifying term, which if given would modify the classification of the cause of death. Beginning with 1958, the 1957 or seventh revision of the Manual of International List of Causes of Death was used in the assignment of causes of death.

It should also be borne in mind that the process of classifying the thousands of different terms — some of them of a very indefinite or unsatisfactory character — under the 600 or more titles of the International List of Causes of Death presents many difficulties which are seldom fully appreciated by those who have not engaged in the work of classification. Even if each certificate of death received during 1960 bore only a single cause, the process would present many difficulties. Many certificates, however, bear statement of two or more causes instead of one and a system of selection, according to the precedents and rules of the Expert Committee of the World Health Organization, has been adopted by the United States Bureau of the Census, and is used in the Division of Vital Statistics. Because of the complications attendant upon any attempt to show all primary and secondary terms in relation, it becomes necessary to base all statistical compilations of causes of death on the selection of the underlying cause of death as stated by the certifying physician, except in instances where the order of entries on the medical certificate is obviously erroneous. The medical certificate, recently adopted, permits the certifying physician or surgeon to signify more clearly the order of events leading up to death. This means that when two or more morbid conditions are given on a certificate one of them must be selected as the cause under which the death must be classified. Special weight has usually been given to communicable diseases, when combined with other causes, and assignments are made to external causes when serious enough to be a factor in the cause of death.

**Principal Causes.** — Slightly less than three-fourths of the 56,560 resident deaths reported in 1960 were caused by diseases of the heart, cancer, vascular lesions affecting the central nervous system, pneumonia and nephritis. These diseases, together with tuberculosis in all forms, external causes, malformations and the diseases of early infancy caused 70.3 per cent of the deaths for the year. Table 21 shows the number of residents of the State who died from these causes.

**Heart Disease,** as usual, was the leading cause of resident deaths in 1960, the total number being 23,673 corresponding to a rate of 458.8 per 100,000 population as compared with 23,144 deaths, or 465.0 per 100,000 in 1959.

**Cancer and other Malignant Neoplasms.** — Cancer ranked second in numerical importance among all the causes of death. The resident deaths from cancer were 9,626 the rate being 186.6 per 100,000 population, with cancers of the digestive organs and peritoneum claiming 37.0 per cent of these deaths, cancer of the genito-urinary organs 18.5 per cent; respiratory system 14.6 per cent; breast 9.7 per cent; hematopoietic and lymphatic tissues 8.9 per cent; buccal cavity and pharynx 2.8 per cent; and 8.5 per cent were of other or unspecified organs. The death rate from cancer has steadily risen from 89.6 in 1910 to 196.0 in 1957 an all-time high, with the first decreases during the last twenty-five years occurring in 1945, 1946, 1949, 1952, 1956, 1958 and 1959 respectively. It is possible that at least a part of this increase is due to more correct diagnosis and greater care on the part of the physicians in making reports, but a part at least is due to the lengthened span of life, resulting in a larger number of people reaching the older age groups.

Among the male deaths the per cent distribution was as follows: digestive organs and peritoneum 37.1; genito-urinary organs 17.6; respiratory system 23.4; breast less than .1; hematopoietic and lymphatic tissues 9.3; buccal cavity and pharynx 4.3 and other unspecified organs 8.3. The per cent distribution of the female deaths was as follows: digestive organs and peritoneum 36.9; genito-urinary organs 19.6; respiratory system 4.8; breast 20.2; hematopoietic and lymphatic tissues 8.5; buccal cavity and pharynx 1.2 and other or unspecified organs 8.8.

Of cancer of the digestive organs and peritoneum, cancer of the intestines claimed the largest number of males, 13.8 per cent, and also claimed the largest number of females, 19.0 per cent. Among the deaths from cancer of the genito-urinary organs, 27.7 per cent were of the prostate gland and 22.3 per cent were of the uterus. More than four-fifths of the deaths from cancer of the lungs and bronchus were of males, 85.0 per cent, while 15.0 per cent were of females. In the buccal cavity group, cancer of the pharynx was responsible for 18.5 per cent of the male deaths and for 2.6 per cent of the female deaths. Less than one-half, 48.9 per cent of the deaths from cancer of the skin were of males; while 51.1 per cent were females. Of the resident deaths from cancer, more than one-half, 52.6 per cent were of males.

**Vascular Lesions, Affecting Central Nervous System** were the causes of 6,081 deaths of residents, or 117.8 per 100,000 population. The death rate from these diseases has fluctuated somewhat, being 116.1 in 1956, 120.3 in 1957, 122.6 in 1958, and 117.3 in 1959.

**Pneumonia** (including bronchopneumonia) caused 2,647 resident deaths in 1960, or 51.3 per 100,000 population, as compared with 2,185 deaths, or 43.9 per 100,000 population in 1959.

**Nephritis,** all forms, was the cause of 339 deaths of Massachusetts residents in 1960 corresponding to a rate of 6.6 per 100,000 population, as compared with 7.0 in 1959, 7.3 in 1958, 8.7 in 1957 and 9.5 in 1956, and an average rate of 8.5 for the five years from 1955 to 1959. The great decrease in these deaths is accounted for by the fact that, under the new classification of causes of death, some forms of nephritis are now included with diseases of the circulatory system.

**Tuberculosis** in its various forms claimed 302 victims in 1960 of whom 280 died from tuberculosis of the respiratory system. Deaths due to the latter cause constituted .5 per cent of all resident deaths during the year, the rate being 5.4 per 100,000 population. In 1910 the death rate from tuberculosis of the respiratory system was 133.2. Since then the decline has been continuous from year to year with the exception of 1918 when the rate was 130. However, this disease has fluctuated during recent years, there being an increase of .6 in 1940, .8 in 1941, .5 in 1946 and .2 in 1959 over the preceding years respectively.

**Diabetes** was the cause of 971 deaths of Massachusetts residents in 1960, an increase of 49 from those reported in 1959 and was responsible for a rate of 18.8 per 100,000 population. The rate from this disease has shown a steady increase from 20.0 in 1926, to 37.9 in 1943, but since the latter year, has fluctuated, as may be seen from the following rates: 1959, 18.8; 1958, 18.5; 1957, 16.6; 1956, 18.2; 1955, 21.6; and an average rate of 21.9 for the five years from 1950 to 1954. Three-fifths, 61.1 per cent, of the resident deaths from diabetes were of females, with the age period 70 to 79 years having the greatest number, 25.4 per cent; of the males 13.9 per cent were in the same age period. This disease attacked persons 50 years of age and over most severely and these age groups claimed 92.3 per cent of diabetic deaths, 58.1 per cent being females and 34.2 per cent males.

**Congenital Debility and Malformations,** including immaturity, caused 1,173 resident deaths in 1960 corresponding to a rate of 22.7 per 100,000 population. The death rates from these causes have shown a steady decline from 109.2 in 1910 (with the exception of 1912, 114.2) to 24.4 in 1951.

**Alcoholism and Cirrhosis of the Liver** (specified as alcoholic, etc.) were responsible for 941 resident deaths in 1960 corresponding to a rate of 18.2 per 100,000 population. Of these 65 were due to alcoholism which is an increase of 29 over those reported in 1959, corresponding to a rate of 1.3 per 100,000 population.

**Maternal Mortality.** — Deaths from puerperal causes of residents of the State in 1960 totalled 27 corresponding to a rate of 2.3 per 10,000 confinements. This rate was an increase from 1959, the rate being 1.9.

**Puerperal Septicemia.** — There were 2 resident deaths from this cause in 1960, none in 1959, but was responsible for 3 resident deaths not including any due to abortion with septic conditions in 1958, the rate for this cause being .2 per 10,000 confinements. In 1957 and in 1956 the rate was .4. Of the deaths from these causes in 1958, 1 was from 15 to 19 years of age, 1 from 30 to 34 years of age and 1 from 35 to 39 years of age.

**Diarrhea and Enteritis** caused 57 deaths of residents in 1960, or 1.1 per 100,000 population. Twenty-one per cent of the total number of deaths charged to these causes in 1960 were of infants under 2 years of age. The rates from this cause for all ages were 1.5 in 1955, 1.4 in 1956, 1.1 in 1957, and 1.1 in 1958.

**Principal Communicable Causes.** — The deaths from epidemic and infectious diseases have shown a great decline in the last 25 years. While certain of these diseases have fluctuated considerably during this period they have, on the whole, shown a steady decrease.

**Influenza** was responsible for 78 deaths of Massachusetts residents, or 1.5 per 100,000 inhabitants, as compared with .3 in 1954, .6 in 1955, .3 in 1956, 1.7 in 1957, and .5 in 1958. In 1918 there were 13,783 deaths from this cause, corresponding to a rate of 352.7 per 100,000 population. Since 1921 this rate has fluctuated between .3 in 1954 and 27.9 in 1929.

**Whooping Cough,** one of the principal epidemic maladies of childhood had 1 death in 1960 and was responsible for 2 deaths in 1958, or less than one-tenth of one per 100,000 population. This was an increase of 1 death over those reported in 1957.

**Measles,** another childhood disease, caused 3 resident deaths in 1960, or one-tenth of one per 100,000 population. There were none in 1959. This rate was .1 in 1957, less than one-tenth of one in 1956, .4 in 1955 and .1 in 1954.

**Scarlet Fever.** — There were no deaths in 1960 from scarlet fever but there was 1 in 1958. The rates have changed from year to year during the period 1933 to 1958, the highest being 2.5 in 1933 and less than one-tenth of one in 1946, 1948, 1949, 1952 and 1956 and no deaths in 1957.

**Diphtheria and Croup** — which are classed together in the statistics, but practically all of which are diphtheria had no deaths in 1960. There has been a decided decrease in this disease since 1900 when the number of deaths was 1,475, with a corresponding rate of 52.6 per 100,000 inhabitants.

**Epidemic Cerebrospinal Meningitis** claimed 20 victims in 1960, as compared with 14 for 1959, 15 for 1958 and 1957, 6 in 1956 and 8 in 1955. The rate for this cause was 3.9 per 100,000 population.

**Encephalitis Lethargica,** commonly known as sleeping sickness, is a comparatively new disease and has varied little in the last five years. There being 8 deaths in 1960, no deaths in 1959 and the number of deaths in 1958 being 6, 9 in 1957, 6 in 1956 and 4 in 1955.

**Dysentery.** — There was 1 death in 1960, no deaths in 1959 and 1958, 1 in 1957, 1 in 1956, 6 in 1955 and 13 in 1954.

**Typhoid Fever** has shown a steady decline since 1910, having dropped from 12.2 in that year to less than one-tenth of one per 100,000 in 1946. This decline is greater, relatively, than that shown for any other important cause of death. There was 1 death due to typhoid fever in 1960, none in 1959, 1958 and 1957, 1 in 1956 and 1955.

**Acute Poliomyelitis** has shown a decrease for 1960, the number of deaths being 4 or .1 per 100,000 population, as compared with 6 or .1 in 1959, less than .1 in 1958, .1 in 1957 and 1956 and 3.6 in 1955.

There were no deaths from Smallpox in 1960.

**Violent and Accidental Deaths.** — Death rates from violence for residents of the State during the past five years per 100,000 population were 60.8 in 1954 and 1955, 61.0 in 1956, 58.3 in 1957, 57.9 in 1958, 57.0 in 1959 and 54.2 in 1960.

Resident deaths due to Railroad Accidents and Injuries totalled 21 and corresponded to a rate of .4 per 100,000 population. The rates for the previous years were .3 in 1955, .6 in 1956, .4 in 1957, .6 in 1958 and .3 in 1959.

Resident deaths resulting from Streetcar Accidents and Injuries numbered 2 or less than one-tenth of one per 100,000 population.

**Motor-Vehicle Traffic Accidents** caused 584 deaths of residents in 1960, with no deaths from motor vehicle and railroad collisions. There were no deaths from motor vehicle and streetcar collisions. There were 16 nontraffic motor vehicle deaths. The rate was 11.3 per 100,000 population, as compared with 11.7 in 1959, 12.8 in 1958, 11.0 in 1957, 12.2 in 1956 and 12.7 in 1955. No accurate data are available for measuring the death rate per number of automobiles in use, as the statistics compiled by the Department of Public Works show the number of machines registered, and thus contain duplications, since one machine may be registered more than once in a calendar year. It is probable, however, that the increase has not been so rapid as that of the number of machines in use.

**Effects of Heat.** — There were no deaths from this cause in 1960. In 1959 there were 5, 1958 and 1957 there were 3 deaths and in 1956, 4. The highest temperature recorded in 1959 was 96 degrees on August 16. The highest temperature recorded at the Weather Bureau of the United States Department of Commerce since 1900 was 104 degrees on July 4, 1911. The next highest temperature was 103 degrees on July 22, 1926.

Deaths of residents caused by Machinery Accidents in 1960 numbered 17 or .3 per 100,000 population. The corresponding figures for previous years were .4 in 1955 and 1956 and .2 in 1957, 1958 and 1959.

The number of Suicides of Massachusetts residents in 1960 was 421 or 8.2 per 100,000 population. The rates since 1955 have been: 1956, 8.5; 1957, 8.1; 1958, 8.5; and in 1959, 8.2.

Resident deaths caused by firearms numbered 157 in 1960 corresponding to a rate of 3.1 per 100,000 population. Of these deaths 110 were suicides, 28 were homicides, and 19 were accidental (including those concerning which the status as to suicide, homicide, or accident was in doubt).

Resident deaths from Homicide numbered 65 in 1960, or 1.3 per 100,000 population. The rates for homicide in recent years are 1.2 in 1955 and 1956, 1.3 in 1957, 1.0 in 1958, and 1.1 in 1959.

The causes of deaths for residents of the Commonwealth by sex for the complete International List of Diseases, Injuries and Causes of Death are shown in Table 10. Deaths from 256 Selected Causes occurring in each month are in Table 11 while those grouped in five-year age periods by sex are shown in Table 12. In Table 13 the deaths are shown for 58 causes and groups of causes for residents of other states dying in Massachusetts as well as residents of Massachusetts dying in other states; also these causes and groups of causes are shown in Table 14 for each county and municipality.

For the Commonwealth as a whole the deaths and death rates for the five years 1955 to 1959 are shown for the 50 causes and groups of causes in the Abbreviated International List in Table 20. In addition to the above presentations, Tables 15 to 19, 21, 23 and 28 to 32 show causes of death.

## DEATHS INVESTIGATED BY MEDICAL EXAMINERS.

**Source of Data.** — The statistics of deaths investigated by medical examiners published in this report are based upon annual returns made by medical examiners and associates to the Secretary of the Commonwealth of deaths supposedly due to violence, the cause and manner of which have been investigated during the year. Deaths supposedly due to violence include deaths caused by the action of chemical, thermal, or electrical agents, or following abortion, or from diseases resulting from injury or infection related to occupation, or suddenly when not disabled by recognizable disease, and those of persons found dead.

Medical examiners are often called upon to view cases in which the death was not due to violence (heart disease, apoplexy, etc.) but where the death was simply sudden or where no physician had been in recent attendance. Medical examiners are also required to certify that they have viewed bodies to be cremated, and to make personal inquiry into the cause and manner of death.

**Number of Deaths Investigated.** — The number of deaths investigated by the medical examiners in 1960 was 14,977, or 26.5 per cent of the total number of deaths which occurred during the year, as compared with 14,429 deaths in 1959 when the rate was 26.0 per cent. Of the deaths investigated by medical examiners, 2,627, or 17.5 per cent, were reported as due to violence, while among the deaths returned to the registrars, 2,799 were reported as due to violence.

The largest number of cases investigated by medical examiners in 1960 was in Middlesex County, 3,332 as compared with 2,062 in Suffolk County. Of the deaths investigated in Middlesex County 644, or 19.3 per cent, were reported as due to violence.

**Autopsies.** — Autopsies were made in 1,774 or 11.8 per cent of the cases investigated by the medical examiners in 1960, as compared with 11.9 in 1959, 11.1 in 1958, 5.4 in 1957, 4.8 in 1956 and 7.2 in 1955.

The highest proportion of autopsies was in Middlesex County where 12.7 per cent of the views were autopsied, there being 21.4 per cent in 1959. Table 34 shows the number of views and the number of autopsies in each county in each year from 1950 to 1959, and the number and per cent of views autopsied for the ten-year period, 1950 to 1959.

**Cause of Death.** — Over three-fourths (82.6 per cent) of the deaths viewed by medical examiners in 1960 were from causes not due to violence, 17.5 per cent were due to violence, and .4 per cent were stillbirths. One thousand, seven hundred and seventy-four, or 11.9 per cent of the views were for cremations.

Deaths from causes not due to violence numbered 12,350, of which 12,187 were from natural causes and 43 were due to alcoholism.

Deaths due to violence numbered 2,627, of which 2,146 were due to accident and poisoning, 417 were suicides, and 64 were homicides.

Of the 2,146 deaths due to accident and poisoning, 923 were due to falls, 585 were due to automobile accidents, 102 resulted from drowning, 20 were due to railroad accidents, and 516 to other causes.

**Suicides** numbered 417, or 15.0 per cent of the deaths due to violence. Suicides committed by the use of illuminating and other gases, 54, and by hanging or strangulation, 121, constituted more than two-fifths (42.0 per cent), of the total number. The number of suicides by firearms was 110; by poisons, 49; by drowning, 38, and other methods, 10.

**Homicides** numbered 64, of which 28 were by firearms, 12 by cutting or piercing instruments, 23 by other means, and one by intervention of police.

**Table 1** REGISTERED AND ALLOCATED DEATHS,[2] IN CITIES AND TOWNS BY SEX, AND DEATH RATES PER 1,000 POPULATION, IN EACH COUNTY, CITY AND TOWN: **1960.**

| COUNTIES AND MUNICIPALITIES[1] | REGISTERED. | | | ALLOCATED. | | | | Population (Estimated July 1, 1960.) |
|---|---|---|---|---|---|---|---|---|
| | Total. | SEX. | | Total. | SEX. | | Rate. | |
| | | Male. | Female. | | Male. | Female. | | |

[2] Allocated since 1935.
[3] Under 4 weeks since 1949.

**Table 10**

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. Total | Males | Females |
|---|---|---|---|---|
| | **All Causes.** | **56,560** | **30,357** | **26,203** |
| I. | Infective and Parasitic Diseases | 519 | 349 | 170 |
| 001–008 | Tuberculosis of the respiratory system | 280 | 211 | 69 |
| 001 | Respiratory tuberculosis with mention of occupational disease of lung | 4 | 3 | 1 |
| 002 | Pulmonary tuberculosis | 271 | 208 | 63 |
| 003.1 | Pleurisy with effusion without mention of cause | 5 | – | 5 |
| 010–019 | Tuberculosis, other forms | 22 | 14 | 8 |
| 010 | Tuberculosis of meninges | 1 | – | 1 |
| 011 | Tuberculosis of intestines, peritoneum and mesenteric glands | 1 | 1 | – |
| 012 | Tuberculosis of bones and joints, active or unspecified | 3 | 2 | 1 |
| .0 | Active or unspecified tuberculosis of vertebral column | 2 | 2 | – |
| .1 | Active or unspecified tuberculosis of hip | 1 | – | 1 |
| 015 | Tuberculosis of lymphatic system | 1 | 1 | – |
| 016 | Tuberculosis of genito-urinary system | 5 | 3 | 2 |
| 017 | Tuberculosis of adrenal glands | 1 | 1 | – |
| 019.2 | Other forms of disseminated tuberculosis | 10 | 6 | 4 |
| 020–029 | Syphilis and its sequelae | 46 | 32 | 14 |
| 022 | Aneurysm of aorta | 24 | 17 | 7 |
| 023 | Other cardiovascular syphilis | 10 | 7 | 3 |
| 024 | Tabes dorsalis | 1 | 1 | – |
| 025 | General paralysis of insane | 3 | 3 | – |
| 026 | Other syphilis of central nervous system | 3 | 2 | 1 |
| 027 | Other forms of late syphilis | 3 | 1 | 2 |
| 028.2 | Latent syphilis, unspecified | 1 | 1 | – |
| 029 | Syphilis, unqualified | 1 | – | 1 |
| 030–039 | Gonococcal infection and other venereal diseases | 2 | 2 | – |
| 030 | Acute or unspecified gonorrhea | 2 | 2 | – |
| 040–049 | Infectious diseases commonly arising in intestinal tract | 4 | 2 | 2 |
| 040 | Typhoid fever | 1 | 1 | – |
| 041 | Paratyphoid fever | 2 | – | 2 |
| 046 | Amoebiasis | 1 | 1 | – |
| 050–064 | Other bacterial diseases | 91 | 54 | 37 |
| 051 | Streptococcal sore throat | 1 | 1 | – |
| 053 | Septicemia and pyemia | 62 | 35 | 27 |
| .0 | Streptococcus | 2 | 1 | 1 |
| .1 | Staphylococcus | 10 | 6 | 4 |
| .3 | Other specified organism | 4 | 1 | 3 |
| .4 | Organism unspecified | 46 | 27 | 19 |
| 056.1 | Whooping cough with pneumonia | 1 | – | 1 |
| 057 | Meningococcal infections | 20 | 12 | 8 |
| .0 | Meningococcal meningitis | 10 | 5 | 5 |
| .1 | Acute and unspecified meningococcemia | 10 | 7 | 3 |
| 061 | Tetanus | 2 | 2 | – |
| 063 | Gas gangrene | 2 | 2 | – |
| 064.4 | Other bacterial diseases not classified elsewhere | 3 | 2 | 1 |
| 070–074 | Spirochetal diseases except syphilis | 1 | 1 | – |
| 074.1 | Other spirochetal infections | 1 | 1 | – |
| 080–096 | Diseases attributable to viruses | 64 | 28 | 36 |
| 080 | Acute poliomyelitis | 4 | 2 | 2 |
| 081 | Late effects of acute poliomyelitis | 4 | 3 | 1 |
| 082.3 | Other and unspecified infectious encephalitis | 8 | 6 | 2 |
| 083 | Late effects of acute infectious encephalitis | 1 | 1 | – |
| 085 | Measles | 6 | 3 | 3 |
| 085.0 | Measles without mention of pneumonia | 3 | 1 | 1 |
| .1 | Measles with pneumonia | 3 | 2 | 1 |
| 087 | Chicken pox | 1 | 1 | – |
| 088 | Herpes zoster | 1 | – | 1 |
| 089 | Mumps | 1 | – | 1 |
| 092 | Infectious hepatitis | 18 | 5 | 13 |
| 096.9 | Other diseases attributable to viruses | 20 | 7 | 13 |
| 120–138 | Other infective and parasitic diseases | 9 | 5 | 4 |
| 134 | Other fungus infections | 2 | 1 | 1 |
| .1 | Cryptococcosis (torulosis) | 1 | 1 | – |
| .3 | Moniliasis | 1 | – | 1 |
| 138 | Other infective and parasitic diseases | 7 | 4 | 3 |
| .0 | Sarcoid of Boeck | 6 | 3 | 3 |
| .1 | Other | 1 | 1 | – |
| II. | Neoplasms | 9,755 | 5,126 | 4,629 |
| 140–205 | Malignant neoplasms, including neoplasms of lymphatic and hematopoietic tissues | 9,626 | 5,060 | 4,566 |
| 140–148 | Malignant neoplasm of buccal cavity and pharynx | 274 | 219 | 55 |

Table 10

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. Total | Males | Females |
|---|---|---|---|---|
| 140 | Malignant neoplasm of lip | 8 | 8 | – |
| .1 | Malignant neoplasm of lower lip | 3 | 3 | – |
| .9 | Lip, unspecified (including commissure) | 5 | 5 | – |
| 141 | Malignant neoplasm of tongue | 62 | 46 | 16 |
| .0 | Base of tongue | 7 | 6 | 1 |
| .9 | Part unspecified | 55 | 40 | 15 |
| 142 | Malignant neoplasm of salivary gland | 25 | 18 | 7 |
| .0 | Parotid gland | 19 | 13 | 6 |
| .7 | Other salivary gland | 4 | 4 | – |
| .9 | Gland unspecified | 2 | 1 | 1 |
| 143 | Malignant neoplasm of floor of mouth | 22 | 19 | 3 |
| 144 | Malignant neoplasm of other parts of mouth and mouth unspecified | 42 | 28 | 14 |
| 145 | Malignant neoplasm of oral mesopharynx | 17 | 16 | 1 |
| .0 | Tonsil (excluding pillars) | 16 | 15 | 1 |
| .7 | Other specified parts of mesopharynx | 1 | 1 | – |
| 146 | Malignant neoplasm of nasal mesopharynx | 17 | 16 | 1 |
| 147 | Malignant neoplasm of hypopharynx | 23 | 17 | 6 |
| 148 | Malignant neoplasm of pharynx, unspecified | 58 | 51 | 7 |
| 150–159 | Malignant neoplasm of digestive organs and peritoneum | 3,560 | 1,877 | 1,683 |
| 150 | Malignant neoplasm of esophagus | 188 | 145 | 43 |
| 151 | Malignant neoplasm of stomach | 813 | 497 | 316 |
| 152 | Malignant neoplasm of small intestine, including duodenum | 38 | 22 | 16 |
| .0 | Duodenum | 14 | 11 | 3 |
| .7 | Other specified parts of small intestine | 13 | 7 | 6 |
| .9 | Part unspecified | 11 | 4 | 7 |
| 153 | Malignant neoplasm of large intestine, except rectum | 1,170 | 492 | 678 |
| .0 | Cecum, appendix, and ascending colon | 179 | 76 | 103 |
| .1 | Transverse colon, including hepatic and splenic flexures | 49 | 18 | 31 |
| .2 | Descending colon | 50 | 21 | 29 |
| .3 | Sigmoid colon | 295 | 145 | 150 |
| .7 | Multiple parts of large intestine | 1 | – | 1 |
| .8 | Large intestine (including colon) part unspecified | 508 | 197 | 311 |
| .9 | Intestinal tract, part unspecified | 88 | 35 | 53 |
| 154 | Malignant neoplasm of rectum | 455 | 254 | 201 |
| 155 | Malignant neoplasm of biliary passages and of liver (primary) | 184 | 78 | 106 |
| .0 | Liver | 46 | 21 | 25 |
| .1 | Gallbladder and extrahepatic gall ducts, including ampulla of Vater | 138 | 57 | 81 |
| 156 | Malignant neoplasm of liver (secondary and unspecified) | 164 | 87 | 77 |
| .1[1] | Unspecified | 119 | 60 | 59 |
| .2 | Secondary | 45 | 27 | 18 |
| 157 | Malignant neoplasm of pancreas | 489 | 274 | 215 |
| 158 | Malignant neoplasm of peritoneum | 19 | 11 | 8 |
| 159 | Manant neoplasm of unspecified digestive organs | 40 | 17 | 23 |
| 160–165 | Malignant neoplasm of respiratory system | 1,402 | 1,184 | 218 |
| 160 | Malignant neoplasm of nose, nasal cavities, middle ear and accessory sinuses | 13 | 7 | 6 |
| .0 | Nose (internal) and nasal cavities | 5 | 2 | 3 |
| .2 | Maxillary sinus | 7 | 4 | 3 |
| .9 | Site unspecified | 1 | 1 | – |
| 161 | Malignant neoplasm of larynx | 111 | 100 | 11 |
| 162 | Malignant neoplasm of bronchus and trachea, and of lung (primary) | 341 | 294 | 47 |
| .0 | Trachea | 7 | 6 | 1 |
| .1 | Bronchus and lung | 334 | 288 | 46 |
| 163 | Malignant neoplasm of lung, unspecified as to whether primary or secondary | 898 | 759 | 139 |
| 164 | Malignant neoplasm of mediastinum | 13 | 7 | 6 |
| 165 | Malignant neoplasm of thoracic organs (secondary) | 26 | 17 | 9 |
| 170–181 | Malignant neoplasms of breast and genito-urinary organs | 2,713 | 891 | 1,822 |
| 170 | Malignant neoplasm of breast | 935 | 10 | 925 |
| 171 | Malignant neoplasm of cervix uteri | 202 | – | 202 |
| 172 | Malignant neoplasm of corpus uteri | 40 | – | 40 |
| 173 | Malignant neoplasm of other parts of uterus, including chorionepithelioma | 7 | – | 7 |
| 174 | Malignant neoplasm of uterus, unspecified | 148 | – | 148 |
| 175 | Malignant neoplasm of ovary, Fallopian tube and broad ligament | 307 | – | 307 |
| .0 | Ovary | 306 | – | 306 |
| .1 | Fallopian tube and broad ligament | 1 | – | 1 |
| 176 | Malignant neoplasm of other and unspecified female genital organs | 28 | – | 28 |
| .0 | Vulva | 16 | – | 16 |
| .1 | Vagina | 5 | – | 5 |
| .7 | Other specified sites | 1 | – | 1 |
| .9 | Site unspecified | 6 | – | 6 |

**Table 10**

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| 177 | Malignant neoplasm of prostate | 493 | 493 | – |
| 178 | Malignant neoplasm of testis | 17 | 17 | – |
| 179 | Malignant neoplasm of other and unspecified male genital organs | 15 | 15 | – |
| .0 | Penis | 14 | 14 | – |
| .1 | Scrotum | 1 | 1 | – |
| 180 | Malignant neoplasm of kidney | 197 | 128 | 69 |
| 181 | Malignant neoplasm of bladder and other urinary organs | 324 | 228 | 96 |
| .0 | Bladder | 318 | 226 | 92 |
| .7 | Other urinary organs | 6 | 2 | 4 |
| 190–199 | Malignant neoplasm of other and unspecified sites | 821 | 419 | 402 |
| 190 | Malignant melanoma of skin | 63 | 35 | 28 |
| .3 | Other and unspecified parts of face | 3 | 3 | – |
| .4 | Scalp and neck | 2 | 2 | – |
| .5 | Trunk | 6 | 2 | 4 |
| .6 | Upper limb | 2 | 1 | 1 |
| .7 | Lower limb | 6 | 3 | 3 |
| .9 | Site unspecified | 44 | 24 | 20 |
| 191 | Other malignant neoplasm of skin | 47 | 23 | 24 |
| .0 | Lips | 1 | 1 | – |
| .1 | Eyelids, including canthi | 1 | – | 1 |
| .2 | Ear and external auricular canal | 4 | 1 | 3 |
| .3 | Other and unspecified parts of face | 20 | 8 | 12 |
| .4 | Scalp and neck | 3 | – | 3 |
| .5 | Trunk | 10 | 7 | 3 |
| .6 | Upper limb | 1 | 1 | – |
| .7 | Lower limb | 1 | 1 | – |
| .9 | Site unspecified | 6 | 4 | 2 |
| 192 | Malignant neoplasm of eye | 16 | 9 | 7 |
| 193 | Malignant neoplasm of brain and other parts of nervous system | 216 | 110 | 106 |
| .0 | Brain | 149 | 75 | 74 |
| .1 | Spinal cord | 1 | 1 | – |
| .2 | Meninges | 3 | 1 | 2 |
| .3 | Peripheral nerves | 1 | 1 | – |
| .4 | Sympathetic nervous system | 6 | 2 | 4 |
| .8 | Multiple sites | 1 | – | 1 |
| .9 | Site unspecified | 55 | 30 | 25 |
| 194 | Malignant neoplasm of thyroid gland | 38 | 15 | 23 |
| 195 | Malignant neoplasm of other endocrine glands | 18 | 11 | 7 |
| .0 | Suprarenal gland | 9 | 5 | 4 |
| .1 | Parathyroid gland | 3 | 1 | 2 |
| .2 | Thymus | 4 | 4 | – |
| .3 | Pituitary gland and craniopharyngeal duct | 1 | 1 | – |
| .7 | Other specified glands | 1 | – | 1 |
| 196 | Malignant neoplasm of bone | 71 | 46 | 25 |
| .0 | Bones of the skull and face | 11 | 9 | 2 |
| .1 | Lower jaw bone | 10 | 7 | 3 |
| .2 | Vertebral column (excluding sacrum and coccyx) | 12 | 7 | 5 |
| .3 | Ribs, sternum and clavicle | 1 | – | 1 |
| .4 | Long bones of upper limb, and scapula | 4 | 2 | 2 |
| .6 | Pelvic bones, sacrum, coccyx | 3 | 2 | 1 |
| .7 | Lower limb, long bones | 11 | 7 | 4 |
| .9 | Multiple sites, and site unspecified | 19 | 12 | 7 |
| 197 | Malignant neoplasm of connective tissue | 38 | 26 | 12 |
| .1 | Trunk | 8 | 5 | 3 |
| .2 | Upper limb (including shoulder) | 1 | – | 1 |
| .3 | Lower limb (including hip) | 5 | 5 | – |
| .8 | Multiple sites | 1 | – | 1 |
| .9 | Site unspecified | 23 | 16 | 7 |
| 198 | Secondary and unspecified malignant neoplasm of lymph nodes | 7 | 5 | 2 |
| .0 | Head, face and neck | 2 | 1 | 1 |
| .3 | Axillary and upper limb | 1 | 1 | – |
| .9 | Site unspecified | 4 | 3 | 1 |
| 199 | Malignant neoplasm of other and unspecified sites | 307 | 139 | 168 |
| .1[1] | Malignant neoplasm of other specified sites not specified as secondary | 48 | 22 | 26 |
| .2 | Malignant neoplasm with primary site not indicated | 259 | 117 | 142 |
| 200–205 | Neoplasm of lymphatic and hematopoietic tissues | 856 | 470 | 386 |
| 200 | Lymphosarcoma and reticulosarcoma | 179 | 99 | 80 |
| .0 | Reticulum cell sarcoma | 53 | 29 | 24 |
| .1 | Lymphosarcoma | 95 | 52 | 43 |
| .2 | Other primary malignant neoplasms of lymphoid tissue | 31 | 18 | 13 |
| 201 | Hodgkin's disease | 120 | 78 | 42 |
| 202 | Other forms of lymphoma (reticulosis) | 57 | 30 | 27 |
| .0 | Giant follicular lymphoma (Brill-Symmer's disease) | 6 | 3 | 3 |
| .1 | Other | 51 | 27 | 24 |
| 203 | Multiple myeloma (plasmocytoma) | 116 | 56 | 60 |

| .1 | Active rheumatic endocarditis | 2 | 1 | 1 |
| .2 | Active rheumatic myocarditis | 1 | 1 | – |
| .3 | Active rheumatic fever with other and multiple types of heart involvement | 3 | 1 | 2 |
| 410–416 | Chronic rheumatic heart disease | 669 | 294 | 375 |
| 410 | Diseases of mitral valve | 246 | 102 | 144 |
| 411 | Diseases of aortic valve specified as rheumatic | 81 | 49 | 32 |
| 414 | Other endocarditis specified as rheumatic | 12 | 2 | 10 |
| 415 | Other myocarditis specified as rheumatic | 6 | 4 | 2 |
| 416 | Other heart disease specified as rheumatic | 324 | 137 | 187 |
| 420–422 | Arteriosclerotic and degenerative heart disease | 20,397 | 11,687 | 8,710 |
| 420 | Arteriosclerotic heart disease, including coronary disease | 19,026 | 11,064 | 7,962 |
| .0 | Arteriosclerotic heart disease so described | 8,204 | 3,980 | 4,224 |
| .1 | Heart disease specified as involving coronary arteries | 10,805 | 7,076 | 3,729 |
| .2 | Angina pectoris without mention of coronary disease | 17 | 8 | 9 |
| 421 | Chronic endocarditis (nonrheumatic) | 187 | 97 | 90 |
| .0 | Of mitral valve, specified as nonrheumatic | 26 | 7 | 19 |
| .1 | Of aortic valve (nonrheumatic) | 98 | 67 | 31 |
| .3 | Of pulmonary valve (nonrheumatic) | 1 | 1 | – |
| .4 | Other and ill-defined (nonrheumatic) | 62 | 22 | 40 |
| 422 | Other myocardial degeneration | 1,184 | 526 | 658 |
| .0 | Fatty degeneration | 3 | 3 | – |
| .1 | With arteriosclerosis | 731 | 305 | 426 |
| .2 | Other | 450 | 218 | 232 |
| 430–434 | Other diseases of heart | 758 | 407 | 351 |
| 430 | Acute and subacute endocarditis | 29 | 20 | 9 |
| .0 | Acute and subacute bacterial endocarditis | 26 | 18 | 8 |
| .1 | Other acute endocarditis | 3 | 2 | 1 |
| 431 | Acute myocarditis not specified as rheumatic | 17 | 7 | 10 |
| 432 | Acute pericarditis specified non-rheumatic | 5 | 3 | 2 |
| 433 | Functional disease of heart | 109 | 52 | 57 |
| .0 | Heart block | 48 | 19 | 29 |
| .1 | Other disorders of heart rhythm | 61 | 33 | 28 |
| 434 | Other and unspecified diseases of heart | 598 | 325 | 273 |
| .0 | Kyphoscoliotic heart disease | 7 | 4 | 3 |
| .1 | Congestive heart failure | 302 | 150 | 152 |
| .2 | Left ventricular failure | 14 | 6 | 8 |
| .3 | Other disease of heart | 11 | 9 | 2 |
| .4 | Unspecified disease of heart | 264 | 156 | 108 |
| 440–447 | Hypertensive disease | 2,226 | 874 | 1,352 |
| 440 | Essential benign hypertension with heart disease | 3 | 1 | 2 |
| 441 | Essential malignant hypertension with heart disease | 10 | 4 | 6 |
| 442 | Hypertensive heart disease with arteriolar nephrosclerosis | 221 | 88 | 133 |
| 443 | Other and unspecified hypertensive heart disease | 1,616 | 608 | 1,008 |
| 444 | Essential benign hypertension without mention of heart | 109 | 42 | 67 |
| 445 | Essential malignant hypertension without mention of heart | 39 | 19 | 20 |
| 446 | Hypertension with arteriolar nephrosclerosis without mention of heart | 219 | 110 | 109 |
| 447 | Other hypertensive disease without mention of heart | 9 | 2 | 7 |
| 450–456 | Diseases of arteries | 1,567 | 690 | 877 |
| 450 | General arteriosclerosis | 1,184 | 452 | 732 |
| .0 | Without mention of gangrene | 1,097 | 407 | 690 |
| .1 | With gangrene | 87 | 45 | 42 |

| Detailed Int. List No. | Table 10 — Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. Total | Males | Females |
|---|---|---|---|---|
| 451 | Aortic aneurysm (nonsyphilitic), and dissecting aneurysm | 284 | 194 | 90 |
| 452 | Other aneurysm, except of heart and aorta | 32 | 12 | 20 |
| 453 | Peripheral vascular disease | 1 | 1 | – |
| .1 | Thrombo-angiitis obliterans | 1 | 1 | – |
| 454 | Arterial embolism and thrombosis | 36 | 24 | 12 |
| 455 | Gangrene of unspecified cause | 6 | 1 | 5 |
| 456 | Other diseases of arteries | 24 | 6 | 18 |
| 460–468 | Diseases of veins and other diseases of circulatory system | 309 | 135 | 174 |
| 460 | Varicose veins of lower extremities | 6 | 2 | 4 |
| 462 | Varicose veins of other specified sites | 8 | 6 | 2 |
| .1 | Varicose veins of esophagus | 8 | 6 | 2 |
| 463 | Phlebitis and thrombophlebitis of lower extremities | 44 | 18 | 26 |
| 464 | Phlebitis and thrombophlebitis of other sites | 53 | 25 | 28 |
| 465 | Pulmonary embolism and infarction | 136 | 60 | 76 |
| 466 | Other venous embolism and thrombosis | 47 | 19 | 28 |
| 467 | Other diseases of circulatory system | 14 | 5 | 9 |
| .0 | Hypotension | 2 | 1 | 1 |
| .1 | Diseases of capillaries | 1 | – | 1 |
| .2 | Other and unspecified circulatory diseases | 11 | 4 | 7 |
| 468 | Certain diseases of lymph nodes and lymph channels | 1 | – | 1 |
| .2 | Lymphadenitis, unqualified | 1 | – | 1 |
| VIII. | Diseases of the Respiratory System | 3,585 | 2,094 | 1,491 |
| 470–475 | Acute upper respiratory infections | 16 | 9 | 7 |
| 474 | Acute laryngitis and tracheitis | 3 | 1 | 2 |
| 475 | Acute upper respiratory infection of multiple or unspecified sites | 13 | 8 | 5 |
| 480–483 | Influenza | 78 | 36 | 42 |
| 480 | Influenza with pneumonia | 58 | 22 | 36 |
| 481 | Influenza with other respiratory manifestations, and influenza unqualified | 15 | 11 | 4 |
| 482 | Influenza with digestive manifestations, but without respiratory symptoms | 1 | 1 | – |
| 483 | Influenza with nervous manifestations, but without digestive or respiratory symptoms | 4 | 2 | 2 |
| 490–493 | Pneumonia | 2,647 | 1,457 | 1,190 |
| 490 | Lobar pneumonia | 346 | 208 | 138 |
| 491 | Bronchopneumonia | 1,744 | 931 | 813 |
| 492 | Primary atypical pneumonia | 250 | 152 | 98 |
| 493 | Pneumonia, other and unspecified | 307 | 166 | 141 |
| 500–502 | Bronchitis | 179 | 126 | 53 |
| 500 | Acute bronchitis | 40 | 23 | 17 |
| 501 | Bronchitis, unqualified | 14 | 12 | 2 |
| 502 | Chronic bronchitis | 125 | 91 | 34 |
| .0 | Bronchitis with emphysema | 78 | 61 | 17 |
| .1 | Other | 47 | 30 | 17 |
| 510–527 | Other diseases of respiratory system | 665 | 466 | 199 |
| 510 | Hypertrophy of tonsils and adenoids | 4 | 2 | 2 |
| .0 | Without tonsillectomy or adenoidectomy | 1 | 1 | – |
| .1 | With tonsillectomy or adenoidectomy | 3 | 1 | 2 |
| 511 | Peritonsillar abscess (quinsy) | 1 | 1 | – |
| 517 | Other diseases of upper respiratory tract | 12 | 7 | 5 |
| 518 | Empyema | 12 | 6 | 6 |
| 519 | Pleurisy | 8 | 7 | 1 |
| .0 | Without mention of effusion or tuberculosis | 2 | 2 | – |
| .2 | Other specified forms of effusion, except tuberculous | 6 | 5 | 1 |
| 520 | Spontaneous pneumothorax | 5 | 2 | 3 |
| 521 | Abscess of lung | 12 | 9 | 3 |
| 522 | Pulmonary congestion and hypostasis | 93 | 43 | 50 |
| 523 | Pneumoconiosis due to silica and silicates (occupational) | 8 | 8 | – |
| .0 | Silicosis | 4 | 4 | – |
| .1 | Anthracosilicosis | 2 | 2 | – |
| .2 | Asbestosis | 1 | 1 | – |
| .3 | Other, including pneumoconiosis unspecified | 1 | 1 | – |
| 524 | Other specified pneumoconiosis and pulmonary fibrosis of occupational origin | 6 | 4 | 2 |
| 525 | Other chronic interstitial pneumonia | 105 | 75 | 30 |
| 526 | Bronchiectasis | 87 | 59 | 28 |
| 527 | Other diseases of lung and pleural cavity | 312 | 243 | 69 |
| .0 | Pulmonary collapse (1 year and over) | 14 | 9 | 5 |
| .1 | Emphysema without mention of bronchitis | 210 | 182 | 28 |
| .2 | Other | 88 | 52 | 36 |
| IX. | Diseases of the Digestive System | 2,397 | 1,414 | 983 |
| 530–539 | Diseases of buccal cavity and esophagus | 31 | 14 | 17 |

**Table 10**

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| 535 | Other diseases of teeth and supporting structures | 2 | 2 | – |
| 537 | Diseases of salivary glands | 9 | 3 | 6 |
| 538 | Other diseases of buccal cavity | 1 | – | 1 |
| 539 | Diseases of esophagus | 19 | 9 | 10 |
| .0 | Functional disorders of esophagus | 1 | – | 1 |
| .1 | Other | 18 | 9 | 9 |
| 540–545 | Diseases of stomach and duodenum | 457 | 325 | 132 |
| 540 | Ulcer of stomach | 210 | 141 | 69 |
| .0 | Without mention of perforation | 149 | 101 | 48 |
| .1 | With perforation | 61 | 40 | 21 |
| 541 | Ulcer of duodenum | 217 | 168 | 49 |
| .0 | Without mention of perforation | 123 | 99 | 24 |
| .1 | With perforation | 94 | 69 | 25 |
| 542 | Gastrojejunal ulcer | 4 | 3 | 1 |
| .0 | Without mention of perforation | 1 | 1 | – |
| .1 | With perforation | 3 | 2 | 1 |
| 543 | Gastritis and duodenitis | 14 | 8 | 6 |
| 544 | Disorders of function of stomach | 1 | 1 | – |
| .2 | Other | 1 | 1 | – |
| 545 | Other diseases of stomach and duodenum | 11 | 4 | 7 |
| 550–553 | Appendicitis | 49 | 37 | 12 |
| 550 | Acute appendicitis | 46 | 35 | 11 |
| .0 | Without mention of peritonitis | 6 | 6 | – |
| .1 | With peritonitis | 40 | 29 | 11 |
| 551 | Appendicitis, unqualified | 3 | 2 | 1 |
| 560–561 | Hernia of abdominal cavity | 105 | 52 | 53 |
| 560 | Hernia of abdominal cavity without mention of obstruction | 49 | 27 | 22 |
| .0 | Inguinal | 10 | 10 | – |
| .2 | Umbilical | 4 | 1 | 3 |
| .3 | Ventral (incisional) | 4 | – | 4 |
| .4 | Other specified sites | 26 | 12 | 14 |
| .5 | Unspecified site | 5 | 4 | 1 |
| 561 | Hernia of abdominal cavity with obstruction | 56 | 25 | 31 |
| .0 | Inguinal | 15 | 11 | 4 |
| .1 | Femoral | 11 | 4 | 7 |
| .2 | Umbilical | 5 | 2 | 3 |
| .3 | Ventral (incisional) | 12 | 1 | 11 |
| .4 | Other specified sites | 6 | 2 | 4 |
| .5 | Unspecified site | 7 | 5 | 2 |
| 570–578 | Other diseases of intestines and peritoneum | 525 | 244 | 281 |
| 570 | Intestinal obstruction without mention of hernia | 199 | 85 | 114 |
| .0 | Intussusception | – | – | – |
| .1 | Paralytic ileus | 8 | 4 | 4 |
| .2 | Mesenteric infarction | 86 | 39 | 47 |
| .3 | Volvulus | 29 | 15 | 14 |
| .4 | Impaction of intestine | 1 | – | 1 |
| .5 | Other | 75 | 27 | 48 |
| 571 | Gastroenteritis and colitis, except ulcerative, ages 4 weeks and over | 56 | 27 | 29 |
| .0 | Ages between 4 weeks and 2 years | 12 | 8 | 4 |
| .1 | Ages 2 years and over | 44 | 19 | 25 |
| 572 | Chronic enteritis and ulcerative colitis | 117 | 46 | 71 |
| .0 | Regional enteritis | 5 | 2 | 3 |
| .1 | Diverticulitis | 76 | 27 | 49 |
| .2 | Ulcerative colitis | 33 | 14 | 19 |
| .3 | Other | 3 | 3 | – |
| 573 | Functional disorders of intestines | 2 | – | 2 |
| .3 | Other, not specified | 2 | – | 2 |
| 575 | Abscess of anal and rectal regions | 1 | – | 1 |
| 576 | Peritonitis | 24 | 12 | 12 |
| 577 | Peritoneal adhesion | 2 | 2 | – |
| 578 | Other diseases of intestines and peritoneum | 124 | 72 | 52 |
| 580–587 | Diseases of liver, gall bladder and pancreas | 1,230 | 742 | 488 |
| 580 | Acute and subacute yellow atrophy of liver | 20 | 11 | 9 |
| 581 | Cirrhosis of liver | 876 | 568 | 308 |
| .0 | Without mention of alcoholism | 406 | 245 | 161 |
| .1 | With alcoholism | 470 | 323 | 147 |
| 582 | Suppurative hepatitis and liver abscess | 8 | 5 | 3 |
| 583 | Other diseases of liver | 27 | 14 | 13 |
| 584 | Cholelithiasis | 70 | 22 | 48 |
| 585 | Cholecystitis without mention of calculi | 67 | 27 | 40 |
| 586 | Other diseases of gall bladder and biliary ducts | 46 | 23 | 23 |
| 587 | Diseases of pancreas | 116 | 72 | 44 |
| .0 | Acute pancreatitis | 94 | 59 | 35 |
| .1 | Chronic pancreatitis | 4 | 2 | 2 |
| .2 | Other diseases of pancreas | 14 | 9 | 5 |
| .3[1] | Cystic fibrosis | 4 | 2 | 2 |

Table 10

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| X. | Diseases of the Genito-urinary System | 892 | 523 | 369 |
| 590–594 | Nephritis and nephrosis | 339 | 198 | 141 |
| 590 | Acute nephritis | 30 | 15 | 15 |
| 591 | Nephritis with edema, including nephrosis | 24 | 17 | 7 |
| 592 | Chronic nephritis | 213 | 126 | 87 |
| 593 | Nephritis not specified as acute or chronic | 69 | 37 | 32 |
| 594 | Other renal sclerosis | 3 | 3 | – |
| 600–609 | Other diseases of urinary system | 428 | 212 | 216 |
| 600 | Infections of kidney | 332 | 160 | 172 |
| .0 | Pyelitis, pyelocystitis and pyelonephritis | 325 | 158 | 167 |
| .1 | Abscess of kidney and perirenal tissue | 6 | 2 | 4 |
| .2 | Other | 1 | – | 1 |
| 601 | Hydronephrosis | 8 | 4 | 4 |
| 602 | Calculi of kidney and ureter | 28 | 18 | 10 |
| 603 | Other diseases of kidney and ureter | 20 | 8 | 12 |
| 604 | Calculi of other parts of urinary system | 2 | 2 | – |
| 605 | Cystitis | 11 | 6 | 5 |
| 606 | Other diseases of bladder | 9 | 6 | 3 |
| 608 | Stricture of urethra | 4 | 3 | 1 |
| 609 | Other diseases of urethra | 14 | 5 | 9 |
| 610–617 | Diseases of male genital organs | 113 | 113 | – |
| 610 | Hyperplasia of prostate | 100 | 100 | – |
| 611 | Prostatitis | 3 | 3 | – |
| 612 | Other diseases of prostate | 6 | 6 | – |
| 614 | Orchitis and epididymitis | 1 | 1 | – |
| 617 | Other diseases of male genital organs | 3 | 3 | – |
| 620–626 | Diseases of breast, ovary, Fallopian tube and parametrium | 2 | – | 2 |
| 626 | Diseases of parametrium and pelvic peritoneum (female) | 2 | – | 2 |
| 630–637 | Diseases of uterus and other female genital organs | 10 | – | 10 |
| 630 | Infective disease of uterus, vagina and vulva | 2 | – | 2 |
| .1 | Other infective diseases of uterus | 2 | – | 2 |
| 631 | Uterovaginal collapse | 3 | – | 3 |
| 633 | Other diseases of uterus | 3 | – | 3 |
| 634 | Disorders of menstruation | 2 | – | 2 |
| XI. | Deliveries and Complications of Pregnancy, Childbirth and the Puerperium | 27 | – | 27 |
| 640–649 | Complications of pregnancy | 10 | – | 10 |
| 642 | Toxemias of pregnancy | 3 | – | 3 |
| .3 | Eclampsia of pregnancy | 3 | – | 3 |
| 644 | Other hemorrhage of pregnancy | 1 | – | 1 |
| 645 | Ectopic pregnancy | 1 | – | 1 |
| 647 | Pregnancy with malposition of fetus in uterus | 1 | – | 1 |
| 648 | Other complications arising from pregnancy | 4 | – | 4 |
| .2 | Placental abnormalities not classified elsewhere | 1 | – | 1 |
| .3 | Other | 3 | – | 3 |
| 650–652 | Abortion | 5 | – | 5 |
| 650 | Abortion without mention of sepsis or toxemia | 3 | – | 3 |
| .1 | Induced for medical or legal indications | 1 | – | 1 |
| .2 | Induced for other reasons | 1 | – | 1 |
| .3 | Other | 1 | – | 1 |
| 651 | Abortion with sepsis | 2 | – | 2 |
| .0 | Spontaneous or unspecified | 1 | – | 1 |
| .2 | Induced for other reasons | 1 | – | 1 |
| 670–678 | Delivery with specified complication | 8 | – | 8 |
| 670 | Delivery complicated by placenta praevia or antepartum hemorrhage | 2 | – | 2 |
| .5 | Cesarean section | 1 | – | 1 |
| .6 | Unspecified type of delivery | 1 | – | 1 |
| 671 | Delivery complicated by retained placenta | 2 | – | 2 |
| .5 | Cesarean section | 1 | – | 1 |
| .6 | Unspecified type of delivery | 1 | – | 1 |
| 672 | Delivery complicated by other postpartum hemorrhage | 1 | – | 1 |
| .6 | Unspecified type of delivery | 1 | – | 1 |
| 677 | Delivery with other trauma | 2 | – | 2 |
| .6 | Unspecified type of delivery | 2 | – | 2 |
| 678 | Delivery with other complications of childbirth | 1 | – | 1 |
| .6 | Unspecified type of delivery | 1 | – | 1 |
| 680–689 | Complications of the puerperium | 4 | – | 4 |
| 681 | Sepsis of childbirth and the puerperium | 2 | – | 2 |
| 684 | Puerperal pulmonary embolism | 2 | – | 2 |

| Detailed Int. List No. | Table 10 — Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| XII. | Diseases of the Skin and Cellular Tissue | 72 | 24 | 48 |
| 690–698 | Infections of skin and subcutaneous tissue | 23 | 9 | 14 |
| 690 | Boil and carbuncle | 2 | – | 2 |
| .7 | Of other and multiple sites | 1 | – | 1 |
| .8 | Of unspecified site | 1 | – | 1 |
| 692 | Other cellulitis and abscess without mention of lymphangitis | 20 | 9 | 11 |
| .0 | Of head and neck | 5 | 4 | 1 |
| .1 | Of trunk | 6 | 2 | 4 |
| .2 | Of upper arm and forearm | 1 | – | 1 |
| .3 | Of hand, except fingers | 1 | 1 | – |

| .6 | Of other, multiple and unspecified sites | 2 | – | 2 |
| 698 | Other local infections of skin and subcutaneous tissue | 1 | – | 1 |
| 700–716 | Other diseases of skin and subcutaneous tissue | 49 | 15 | 34 |
| 703 | Other dermatitis | 2 | 2 | – |
| .7 | Unqualified | 2 | 2 | – |
| 704 | Pemphigus | 2 | 2 | – |
| .1 | Other | 2 | 2 | – |
| 705 | Erythematous conditions | 22 | 5 | 17 |
| .1 | Erythema multiforme (erythema iris) | 3 | 2 | 1 |
| .4 | Lupus erythematosus | 16 | 2 | 14 |
| .5 | Other and unqualified | 3 | 1 | 2 |
| 710 | Other hypertrophic and atrophic conditions of skin | 8 | 1 | 7 |
| 715 | Chronic ulcer of skin | 15 | 5 | 10 |
| XIII. | Diseases of the Bones and Organs of Movement | 98 | 39 | 59 |
| 720–727 | Arthritis and rheumatism, except rheumatic fever | 47 | 19 | 28 |
| 720 | Acute arthritis due to pyogenic organisms | 1 | 1 | – |
| 721 | Acute non-pyogenic arthritis | 1 | 1 | – |
| 722 | Rheumatoid arthritis and allied conditions | 25 | 7 | 18 |
| .0 | Rheumatoid arthritis | 24 | 6 | 18 |
| .1 | Spondylitis ankylopoietica | 1 | 1 | – |
| 723 | Osteo-arthritis (arthrosis) and allied conditions | 14 | 7 | 7 |
| .0 | Osteo-arthritis (arthrosis) | 12 | 5 | 7 |
| .1 | Spondylitis osteo-arthritica (spondylarthrosis) | 2 | 2 | – |
| 724 | Other specified forms of arthritis | 2 | – | 2 |
| 725 | Arthritis unspecified | 4 | 3 | 1 |
| 730–738 | Osteomyelitis and other diseases of bone and joint | 20 | 7 | 13 |
| 730 | Osteomyelitis and periostitis | 7 | 3 | 4 |
| .0 | Acute osteomyelitis | 2 | 1 | 1 |
| .1 | Chronic osteomyelitis | 1 | – | 1 |
| .2 | Unspecified osteomyelitis | 4 | 2 | 2 |
| 731 | Osteitis deformans | 5 | 2 | 3 |
| 733 | Other diseases of bone | 7 | 1 | 6 |
| 737 | Ankylosis of joint | 1 | 1 | – |
| 740–749 | Other diseases of musculoskeletal system | 31 | 13 | 18 |
| 742 | Synovitis, bursitis, and tenosynovitis of occupational origin | 1 | 1 | – |
| 744 | Other diseases of muscle, tendon and fascia | 27 | 11 | 16 |
| .0 | Myasthenia gravis | 13 | 4 | 9 |
| .1 | Inborn defect of muscle | 12 | 6 | 6 |
| .2 | Other | 2 | 1 | 1 |
| 745 | Curvature of spine | 3 | 1 | 2 |
| XIV. | Congenital Malformations | 578 | 305 | 273 |
| 750–759 | Congenital malformations | 578 | 305 | 273 |
| 750 | Monstrosity | 44 | 10 | 34 |
| 751 | Spina bifida and meningocele | 37 | 14 | 23 |
| 752 | Congenital hydrocephalus | 44 | 24 | 20 |
| 753 | Other congenital malformations of nervous system and sense organs | 15 | 9 | 6 |
| .0 | Congenital cataract | 1 | 1 | – |
| .1 | Other | 14 | 8 | 6 |
| 754 | Congenital malformations of circulatory system | 294 | 163 | 131 |
| .0 | Tetralogy of Fallot | 17 | 12 | 5 |
| .1 | Patent ductus ateriosus (Botali) | 7 | 4 | 3 |
| .2 | Interventricular septal defect | 22 | 10 | 12 |
| .3 | Interauricular septal defect | 21 | 5 | 16 |
| .4 | Fibroelastosis cordis | 6 | 4 | 2 |
| .5 | Other and unspecified malformations of heart | 193 | 112 | 81 |
| .6 | Coarctation of aorta | 8 | 7 | 1 |
| .7 | Other circulatory malformations | 20 | 9 | 11 |
| 755 | Cleft palate and harelip | 2 | 1 | 1 |
| 756 | Congenital malformations of digestive system | 25 | 11 | 14 |
| .1 | Imperforate anus | 3 | 2 | 1 |

| Detailed Int. List No. | Table 10 — Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| .2 | Other | 22 | 9 | 13 |
| 757 | Congenital malformation of genito-urinary system | 47 | 31 | 16 |
| .1 | Polycystic disease of kidney | 32 | 19 | 13 |
| .2 | Congenital malformations of external genital organs | 1 | – | 1 |

| .5 | Attributed to "toxemia of pregnancy", with immaturity | 1 | 1 | – |
| .6 | Attributed to maternal diabetes, with immaturity | 1 | – | 1 |
| .9 | Attributed to other unspecified diseases of the mother during pregnancy, with immaturity | 2 | 2 | – |
| 770–776 | Other diseases peculiar to early infancy | 847 | 524 | 323 |
| 770 | Hemolytic disease of newborn (erythroblastosis) | 78 | 48 | 30 |
| .0 | Erythroblastosis without mention of nervous affection or immaturity | 60 | 36 | 24 |
| .1 | Kernicterus, without mention of immaturity | 2 | 1 | 1 |
| .2 | Erythroblastosis with disorder of liver other than icterus gravis, without mention of immaturity | 1 | 1 | – |
| .5 | Erythroblastosis, without mention of nervous affection but with immaturity | 14 | 9 | 5 |
| .6 | Kernicterus with immaturity | 1 | 1 | – |
| 771 | Hemorrhagic disease of newborn | 18 | 10 | 8 |
| .0 | Without mention of immaturity | 13 | 7 | 6 |
| .5 | With immaturity | 5 | 3 | 2 |
| 772 | Nutritional maladjustment | 2 | 1 | 1 |
| .0 | Without mention of immaturity | 1 | 1 | – |
| .5 | With immaturity | 1 | – | 1 |
| 773 | Ill-defined diseases peculiar to early infancy | 154 | 104 | 50 |
| .0 | Without mention of immaturity | 42 | 28 | 14 |
| .5 | With immaturity | 112 | 76 | 36 |
| 774 | Immaturity with mention of any other subsidiary condition | 20 | 12 | 8 |
| 776 | Immaturity, unqualified | 575 | 349 | 226 |
| XVI. | Symptoms, Senility and Ill-defined Conditions | 239 | 137 | 102 |
| 780–789 | Symptoms referable to systems or organs | 122 | 70 | 52 |
| 780 | Certain symptoms referable to nervous system and special senses | 3 | 3 | – |
| .2 | Convulsions | 2 | 2 | – |
| .4 | Abnormal involuntary movement | 1 | 1 | – |
| 781 | Other symptoms referable to nervous system and special senses | 2 | 1 | 1 |
| .8 | Encephalopathy | 2 | 1 | 1 |

**Table 10**

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. Total | Males | Females |
|---|---|---|---|---|
| 782 | Symptoms referable to cardiovascular and lymphatic system | 98 | 55 | 43 |
| .2 | Tachycardia | 1 | 1 | – |
| .4 | Acute heart failure, undefined | 96 | 53 | 43 |
| .7 | Enlargement of lymph node | 1 | 1 | – |
| 783 | Symptoms referable to respiratory system | 2 | 2 | – |
| .0 | Epistaxis | 1 | 1 | – |
| .1 | Hemoptysis | 1 | 1 | – |
| 784 | Symptoms referable to upper gastro-intestinal tract | 10 | 6 | 4 |
| .5 | Hematemesis | 10 | 6 | 4 |
| 785 | Symptoms referable to abdomen and lower gastro-intestinal tract | 2 | – | 2 |
| .6 | Diarrhea, age 2 years and over | 1 | – | 1 |
| .8 | Melena (age 1 year and over) | 1 | – | 1 |
| 786 | Symptoms referable to genito-urinary system | 1 | – | 1 |
| .5 | Oliguria, anuria (not of newborn) | 1 | – | 1 |
| 788 | Other general symptoms | 4 | 3 | 1 |
| .0 | Dehydration | 2 | 1 | 1 |
| .6 | Acidosis | 1 | 1 | – |
| .9 | Other specified symptoms not classified elsewhere | 1 | 1 | – |
| 790–795 | Senility and ill-defined diseases | 117 | 67 | 50 |
| 792 | Uremia | 22 | 14 | 8 |
| 794 | Senility without mention of psychosis | 21 | 4 | 17 |
| 795 | Ill-defined and unknown causes of morbidity and mortality | 74 | 49 | 25 |
| .0 | Other ill-defined conditions | 10 | 5 | 5 |
| .3 | Found dead (cause unknown) | 2 | 1 | 1 |
| .5 | Other unknown and unspecified causes | 62 | 43 | 19 |
| XVII. | Accidents, Poisonings and Violence | 2,799 | 1,746 | 1,053 |
| 800–802 | Railroad accidents | 21 | 17 | 4 |
| 800 | Railroad accident involving railroad employee | 6 | 6 | – |
| 802 | Railroad accident involving other and unspecified person | 15 | 11 | 4 |
| 810–825 | Motor-vehicle traffic accidents | 584 | 434 | 150 |
| 812 | Motor-vehicle traffic accident to pedestrian | 201 | 142 | 59 |
| 813 | Motor-vehicle traffic accident to rider of bicycle | 10 | 9 | 1 |
| 814 | Motor-vehicle traffic accident to rider or passenger of motorcycle, in collision with nonmotor vehicle or object | 2 | 2 | – |
| 815 | Motor-vehicle traffic accident to rider or passenger of motorcycle in collision with other motor vehicle | 4 | 4 | – |
| 816 | Other motor-vehicle traffic accident involving two or more motor vehicles | 118 | 75 | 43 |
| 819 | Motor-vehicle traffic accident involving collision with fixed or unspecified object | 123 | 100 | 23 |
| 820 | Motor-vehicle traffic accident while boarding and alighting | 1 | 1 | – |
| 821 | Motor-vehicle traffic accident to rider of motorcycle without antecedent collision | 13 | 10 | 3 |
| 822 | Motor-vehicle traffic accident involving overturning on highway | 18 | 16 | 2 |
| 823 | Motor-vehicle traffic accident involving running off highway | 57 | 45 | 12 |
| 824 | Other noncollision motor-vehicle traffic accident | 7 | 7 | – |
| 825 | Motor-vehicle traffic accident of unspecified nature | 30 | 23 | 7 |
| 830–835 | Motor-vehicle nontraffic accidents | 16 | 10 | 6 |
| 830 | Motor-vehicle nontraffic accident to pedestrian | 8 | 7 | 1 |
| 833 | Other motor-vehicle nontraffic accident involving two or more motor vehicles | 1 | – | 1 |
| 834 | Motor-vehicle nontraffic accident while boarding and alighting | 1 | – | 1 |
| 835 | Motor-vehicle nontraffic accident of other and unspecified nature | 6 | 3 | 3 |
| 840–845 | Other road-vehicle accidents | 4 | 3 | 1 |
| 840 | Street car accident to pedestrian | 2 | 2 | – |
| 843 | Accident to rider of bicycle not involving collision with motor vehicle | 1 | – | 1 |
| 845 | Other non-motor road vehicle accidents | 1 | 1 | – |
| 850–858 | Water-transport accidents | 22 | 21 | 1 |
| 850 | Drowning of occupant of small boat | 18 | 18 | – |
| 853 | Other falls from one level to another in water transport | 4 | 3 | 1 |
| 860–866 | Aircraft accidents | 39 | 37 | 2 |
| 860 | Accident to personnel in military aircraft | 3 | 3 | – |
| 861 | Injury to occupant by accident to commercial "transport" aircraft | 30 | 28 | 2 |
| 864 | Aircraft accident at airfield to person not in aircraft | 1 | 1 | – |

**Table 10**

| Detailed Int. List No. | Cause of Death. | Allocated Deaths (Exclusive of Stillbirths) from Each Cause and Class of Causes, According to the Detailed International List, by Sex: 1960. | | |
|---|---|---|---|---|
| | | Total | Males | Females |
| 866 | Other and unspecified aircraft accidents | 5 | 5 | – |
| 870–888 | Accidental poisoning by solid and liquid substances | 31 | 18 | 13 |
| 871 | Accidental poisoning by barbituric acid and derivatives | 6 | 3 | 3 |
| 872 | Accidental poisoning by aspirin and salicylates | 6 | 4 | 2 |
| 874 | Accidental poisoning by other analgesic and soporific drugs | 3 | 1 | 2 |
| 878 | Accidental poisoning by other and unspecified drugs | 1 | 1 | – |
| 880 | Accidental poisoning by alcohol | 4 | 3 | 1 |
| 882 | Accidental poisoning by industrial solvents | 3 | 3 | – |
| 883 | Accidental poisoning by corrosive aromatics, acids and caustic alkalis | 3 | 1 | 2 |
| 885 | Accidental poisoning by lead and its compounds | 3 | 1 | 2 |
| 888 | Accidental poisoning by other and unspecified solid and liquid substances | 2 | 1 | 1 |
| 890–895 | Accidental poisoning by gases and vapors | 38 | 29 | 9 |
| 890 | Accidental poisoning by utility (illuminating) gas | 8 | 3 | 5 |
| 891 | Accidental poisoning by motor-vehicle exhaust gas | 19 | 16 | 3 |
| 892 | Accidental poisoning by other carbon monoxide gas | 11 | 10 | 1 |
| 900–904 | Accidental falls | 1,020 | 448 | 572 |
| 900 | Fall on stairs | 138 | 91 | 47 |
| 901 | Fall from ladders | 10 | 10 | – |
| 902 | Other falls from one level to another | 158 | 73 | 85 |
| 903 | Fall on same level | 248 | 92 | 156 |
| 904 | Unspecified falls | 466 | 182 | 284 |
| 910–936 | Other accidents | 513 | 357 | 156 |
| 910 | Blow from falling or projected object or missile | 19 | 19 | – |
| 912 | Accident caused by machinery | 17 | 17 | – |
| 913 | Accident caused by cutting and piercing instruments | 4 | 3 | 1 |
| 914 | Accident caused by electric current | 14 | 13 | 1 |
| 915 | Accident caused by explosion of pressure vessel | 4 | 3 | 1 |
| 916 | Accident caused by fire and explosion of combustible material | 181 | 102 | 79 |
| 917 | Accident caused by hot substance, corrosive liquid, and steam | 12 | 9 | 3 |
| 919 | Accident caused by firearms | 19 | 17 | 2 |
| 921 | Inhalation and ingestion of food causing obstruction or suffocation | 41 | 27 | 14 |
| 922 | Inhalation and ingection of other object causing obstruction or suffocation | 8 | 5 | 3 |
| 924 | Accidental mechanical suffocation in bed and crib | 18 | 6 | 12 |
| 925 | Accidental mechanical suffocation in other and unspecified circumstances | 15 | 10 | 5 |
| 927 | Accidents caused by bites and stings of venomous animals and insects | 1 | 1 | – |
| 929 | Accidental drowning and submersion | 104 | 85 | 19 |
| 932 | Excessive cold | 3 | 1 | 2 |
| 933 | Hunger, thirst and exposure | 6 | 4 | 2 |
| 936 | Other and unspecified accidents | 48 | 36 | 12 |
| 940–946 | Complications due to nontherapeutic medical and surgical procedures | 1 | 1 | – |
| 943 | Post-immunization jaundice and hepatitis | 1 | 1 | – |
| 950–959 | Therapeutic misadventure and late complications of therapeutic procedures | 16 | 6 | 10 |
| 950 | Therapeutic misadventure in surgical treatment | 5 | 1 | 4 |
| 951 | Therapeutic misadventure in infusion or transfusion | 3 | 1 | 2 |
| 953 | Therapeutic misadventure in administration of drugs or biologicals | 3 | 2 | 1 |
| 954 | Therapeutic misadventure in anesthesia | 5 | 2 | 3 |
| 960–965 | Late effects of injury and poisoning | 9 | 7 | 2 |
| 960 | Late effect of motor-vehicle accident | 1 | – | 1 |
| 962 | Late effect of other accidental injury | 8 | 7 | 1 |
| 970–979 | Suicide and self-inflicted injury | 421 | 324 | 97 |
| 970 | Suicide and self-inflicted poisoning by analgesic and soporific substances | 39 | 13 | 26 |
| .1[1] | Morphine and other opium derivatives | 1 | 1 | – |
| .2 | Barbituric acid and derivatives | 34 | 10 | 24 |
| .4 | Methyl salicylate | 1 | 1 | – |
| .8 | Others | 2 | 1 | 1 |
| .9 | Unspecified drugs | 1 | – | 1 |
| 971 | Suicide and self-inflicted poisoning by other solid and liquid substances | 13 | 8 | 5 |
| .3 | Lye and potash | 1 | 1 | – |
| .4 | Cresol compounds | 1 | – | 1 |
| .6 | Arsenic and its compounds | 1 | – | 1 |
| .7 | Fluorides | 1 | – | 1 |

| 142–144 | Of other and unspecified parts of buccal cavity | 89 | 7 | 7 | 4 | 7 | 6 | 8 | 3 | 10 | 15 | 11 | 9 | 2 |
| 145–148 | Of pharynx | 115 | 10 | 9 | 12 | 8 | 10 | 11 | 14 | 11 | 1 | 7 | 14 | 8 |
| 150–156.1, 157–159 | Malignant neoplasm of digestive organs and peritoneum, not specified as secondary | 3,515 | 317 | 307 | 272 | 284 | 273 | 286 | 317 | 290 | 289 | 286 | 277 | 317 |
| 150 | Of esophagus | 188 | 20 | 18 | 12 | 13 | 14 | 13 | 15 | 26 | 15 | 15 | 12 | 15 |
| 151 | Of stomach | 813 | 71 | 56 | 55 | 71 | 67 | 67 | 60 | 64 | 76 | 73 | 75 | 78 |
| 152, 153 | Of intestine, except rectum | 1,208 | 96 | 108 | 99 | 100 | 93 | 98 | 107 | 86 | 108 | 98 | 99 | 116 |
| 154 | Of rectum | 455 | 46 | 43 | 39 | 34 | 34 | 39 | 47 | 41 | 33 | 29 | 26 | 44 |
| 155 | Of biliary passages and of liver (stated to be primary site) | 184 | 18 | 16 | 14 | 16 | 15 | 13 | 23 | 15 | 12 | 17 | 13 | 12 |
| 156.1 | Of liver not specified as primary or secondary | 119 | 12 | 19 | 12 | 10 | 12 | 11 | 12 | 9 | 2 | 5 | 12 | 3 |
| 157 | Of pancreas | 489 | 47 | 43 | 37 | 34 | 32 | 40 | 49 | 44 | 38 | 46 | 31 | 48 |
| 158, 159 | Of peritoneum and of unspecified digestive organs | 59 | 7 | 4 | 4 | 6 | 6 | 5 | 4 | 5 | 5 | 3 | 9 | 1 |
| 160–164 | Malignant neoplasm of respiratory system, not specified as secondary | 1,376 | 132 | 132 | 103 | 103 | 113 | 114 | 94 | 115 | 127 | 110 | 109 | 124 |
| 161 | Of larynx | 112 | 11 | 10 | 8 | 10 | 11 | 4 | 2 | 10 | 13 | 8 | 8 | 17 |
| 162 | Of trachea, and of bronchus and lung specified as primary | 341 | 39 | 30 | 26 | 23 | 27 | 26 | 27 | 29 | 28 | 31 | 25 | 30 |
| 163 | Of lung and bronchus, unspecified as primary or secondary | 898 | 82 | 90 | 67 | 68 | 71 | 83 | 62 | 73 | 83 | 70 | 75 | 74 |
| 160, 164 | Of other parts of respiratory system | 25 | – | 2 | 2 | 2 | 4 | 1 | 3 | 3 | 3 | 1 | 1 | 3 |
| 170 | Malignant neoplasm of breast | 935 | 77 | 74 | 81 | 85 | 78 | 68 | 80 | 77 | 75 | 79 | 79 | 82 |
| 171–179 | Malignant neoplasm of genital organs | 1,257 | 109 | 104 | 91 | 100 | 110 | 101 | 99 | 101 | 107 | 106 | 106 | 123 |
| 171 | Of cervix uteri | 202 | 25 | 22 | 14 | 11 | 12 | 14 | 13 | 15 | 17 | 16 | 19 | 24 |
| 172–174 | Of other and unspecified parts of uterus | 195 | 17 | 15 | 11 | 10 | 21 | 20 | 22 | 15 | 19 | 17 | 9 | 19 |
| 175 | Of ovary, Fallopian tube, and broad ligament | 307 | 23 | 25 | 28 | 29 | 25 | 22 | 23 | 32 | 22 | 24 | 26 | 28 |
| 176 | Of other and unspecified female genital organs | 28 | 4 | 1 | 1 | 3 | 4 | – | 5 | 3 | 3 | 2 | 1 | 1 |
| 177 | Of prostate | 493 | 37 | 39 | 33 | 41 | 44 | 45 | 35 | 34 | 43 | 46 | 46 | 50 |
| 178, 179 | Of testis, and of other and unspecified male genital organs | 32 | 3 | 2 | 4 | 6 | 4 | – | 1 | 2 | 3 | 1 | 5 | 1 |
| 180, 181 | Malignant neoplasm of urinary organs | 521 | 48 | 47 | 43 | 52 | 40 | 46 | 47 | 42 | 40 | 44 | 34 | 38 |
| 180 | Of kidney | 197 | 24 | 17 | 9 | 21 | 19 | 19 | 19 | 11 | 15 | 15 | 12 | 16 |
| 181 | Of bladder and other urinary organs | 324 | 24 | 30 | 34 | 31 | 21 | 27 | 28 | 31 | 25 | 28 | 22 | 22 |
| 156.2, 165, 190–199 | Malignant neoplasm of other and unspecified sites | 892 | 77 | 65 | 75 | 74 | 72 | 76 | 69 | 77 | 74 | 93 | 62 | 78 |
| 190, 191 | Of skin | 110 | 11 | 8 | 9 | 7 | 10 | 9 | 9 | 15 | 2 | 13 | 8 | 9 |
| 192 | Of eye | 16 | 1 | 1 | 2 | 2 | 1 | – | – | 1 | 1 | 1 | 4 | 2 |

Table 11

ALLOCATED DEATHS (EXCLUSIVE OF STILLBIRTHS) FROM 256 SELECTED CAUSES, BY MONTHS: 1960.

| Detailed Int. List No. | CAUSE OF DEATH. | Total. | MONTHS. January. | February. | March. | April. | May. | June. | July. | August. | September. | October. | November. | December. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 193 | Of brain and other parts of nervous system | 216 | 13 | 12 | 22 | 13 | 18 | 14 | 16 | 19 | 22 | 26 | 20 | 21 |
| 194 | Of thyroid gland | 38 | 2 | 3 | 5 | 5 | 4 | 4 | 3 | – | 1 | 3 | 3 | 5 |
| 196 | Of bone(including jaw bone) | 71 | 7 | 4 | 6 | 9 | 3 | 5 | 5 | 10 | 5 | 7 | 5 | 5 |
| 197 | Of connective tissue | 38 | 3 | 4 | 4 | 6 | 4 | 3 | 3 | 1 | 2 | 4 | – | 4 |
| 195, 198.0–.8 199.1 | Of other specified sites, not stated to be secondary | 67 | 8 | 9 | 2 | 5 | 3 | 5 | 4 | 5 | 5 | 8 | 7 | 6 |
| 156.2, 165, 198.9, 199.2 | Of unspecified sites | 336 | 32 | 24 | 25 | 27 | 29 | 36 | 29 | 26 | 36 | 31 | 15 | 26 |
| 204 | Leukemia and aleukemia | 383 | 35 | 32 | 36 | 28 | 26 | 25 | 38 | 34 | 29 | 37 | 29 | 34 |
| 200–203, 205 | Lymphosarcoma, etc.[1] | 473 | 34 | 42 | 40 | 31 | 36 | 36 | 30 | 45 | 41 | 49 | 54 | 35 |
| 200 | Lymphosarcoma and reticulosarcoma | 179 | 13 | 14 | 18 | 13 | 13 | 12 | 12 | 16 | 12 | 16 | 30 | 10 |
| 201 | Hodgkin's disease | 120 | 13 | 11 | 8 | 8 | 7 | 12 | 6 | 12 | 15 | 13 | 8 | 7 |
| 202, 203, 205 | Other neoplasms of lymphatic and hematopoietic tissues | 174 | 8 | 17 | 14 | 10 | 16 | 12 | 12 | 17 | 14 | 20 | 16 | 18 |
| 210–239 | Benign neoplasms and neoplasms of unspecified nature | 129 | 15 | 15 | 7 | 9 | 8 | 11 | 13 | 13 | 8 | 9 | 11 | 10 |
| 214–217 | Benign neoplasms of female genital organs | 3 | – | – | – | – | – | 2 | – | 1 | – | – | – | – |
| 223 | Benign neoplasm of brain and other parts of nervous system | 29 | 3 | 6 | 2 | 3 | 1 | – | 2 | 5 | 2 | 2 | 3 | – |
| 210–213, 218–222, 224–229 | Other benign neoplasms | 22 | 3 | 2 | 1 | 1 | 1 | 1 | 2 | 1 | 3 | 2 | 3 | 2 |
| 233–235 | Neoplasm of unspecified nature of female genital organs | – | – | – | – | – | – | – | – | – | – | – | – | – |
| 237 | Neoplasm of unspecified nature of brain, etc.[1] | 50 | 5 | 4 | – | 4 | 3 | 6 | 7 | 2 | 2 | 5 | 4 | 8 |
| 230–232,236, 238, 239 | Other neoplasms of unspecified nature | 25 | 4 | 3 | 4 | 1 | 3 | 2 | 2 | 4 | 1 | – | 1 | – |
| III. | ALLERGIC, ENDOCRINE SYSTEM, METABOLIC, AND NUTRITIONAL DISEASES | 1,272 | 128 | 115 | 108 | 95 | 114 | 94 | 84 | 118 | 106 | 103 | 97 | 110 |
| 241 | Asthma | 191 | 25 | 25 | 14 | 20 | 11 | 12 | 9 | 11 | 14 | 19 | 17 | 14 |
| 250, 251 | Nontoxic goiter | 5 | – | – | – | 1 | 1 | – | 1 | 1 | – | – | – | 1 |
| 252 | Thyrotoxicosis with or without goiter | 12 | 3 | – | 2 | 1 | 2 | 1 | – | 1 | – | 1 | 1 | – |
| 253, 254 | Myxedema, cretinism, and other diseases of thyroid gland | 8 | – | – | – | – | 2 | 2 | 1 | 1 | 1 | – | 1 | – |
| 260 | Diabetes mellitus | 972 | 88 | 86 | 82 | 65 | 84 | 70 | 68 | 96 | 87 | 77 | 76 | 93 |
| 273 | Diseases of thymus gland | – | – | – | – | – | – | – | – | – | – | – | – | – |
| 274 | Diseases of adrenal glands | 13 | 2 | 1 | – | 2 | 2 | 2 | – | 2 | – | 1 | – | 1 |
| 281 | Pellagra | – | – | – | – | – | – | – | – | – | – | – | – | – |
| 280, 282–286 | All other avitaminoses and nutritional deficiency states | 25 | 3 | 3 | 3 | 2 | 4 | 1 | – | 3 | 3 | 2 | 1 | – |
| Residual[1] | Other allergic, endocrine, and metabolic diseases | 46 | 7 | – | 7 | 4 | 8 | 6 | 5 | 3 | 1 | 3 | 1 | 1 |
| IV. | DISEASES OF THE BLOOD AND BLOOD-FORMING ORGANS | 125 | 8 | 6 | 10 | 12 | 11 | 11 | 8 | 20 | 6 | 12 | 9 | 12 |
| 290–293 | Anemias | 69 | 3 | 2 | 3 | 7 | 6 | 7 | 4 | 12 | 5 | 7 | 6 | 7 |
| 290 | Pernicious and other hyperchromic anemias | 17 | – | 1 | 1 | 3 | 1 | 3 | 1 | 1 | 1 | 2 | 1 | 2 |
| 291–293 | Anemias of other and unspecified type | 52 | 3 | 1 | 2 | 4 | 5 | 4 | 3 | 11 | 4 | 5 | 5 | 5 |
| 296 | Purpura and other hemorrhagic conditions | 22 | 2 | 1 | 5 | 2 | 3 | 2 | 1 | 1 | 1 | 3 | – | 1 |
| 294, 295, 297–299 | All other diseases of blood and blood-forming organs | 34 | 3 | 3 | 2 | 3 | 2 | 2 | 3 | 7 | – | 2 | 3 | 4 |

**Table 11**

ALLOCATED DEATHS (EXCLUSIVE OF STILLBIRTHS) FROM 256 SELECTED CAUSES, BY MONTHS: 1960.

| Detailed Int. List No. | CAUSE OF DEATH. | Total. | MONTHS. January. | February. | March. | April. | May. | June. | July. | August. | September. | October. | November. | December. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 560, 561, 570 | Hernia and intestinal obstruction | 304 | 28 | 27 | 26 | 23 | 26 | 23 | 23 | 26 | 26 | 24 | 26 | 26 |
| 571, 572 | Gastro-enteritis and colitis, except diarrhea of newborn | 173 | 16 | 12 | 18 | 15 | 11 | 16 | 15 | 9 | 14 | 17 | 19 | 11 |
| 581 | Cirrhosis of liver | 876 | 69 | 77 | 64 | 66 | 84 | 68 | 63 | 74 | 79 | 79 | 71 | 82 |
| 581.0 | Without mention of alcoholism | 406 | 30 | 32 | 31 | 29 | 36 | 35 | 29 | 32 | 40 | 37 | 46 | 29 |
| 581.1 | With alcoholism | 470 | 39 | 45 | 33 | 37 | 48 | 33 | 34 | 42 | 39 | 42 | 25 | 53 |
| 584, 585 | Cholelithiasis and cholecystitis | 137 | 14 | 7 | 15 | 10 | 14 | 13 | 11 | 9 | 12 | 7 | 13 | 12 |
| Residual[1] | Other diseases of digestive system | 415 | 33 | 40 | 40 | 24 | 37 | 27 | 40 | 47 | 30 | 39 | 27 | 31 |
| X. | DISEASES OF THE GENITO-URINARY SYSTEM | 892 | 73 | 84 | 80 | 75 | 77 | 75 | 67 | 68 | 67 | 76 | 74 | 76 |
| 590–594 | Nephritis and nephrosis | 339 | 34 | 36 | 29 | 32 | 34 | 28 | 20 | 21 | 25 | 25 | 22 | 33 |
| 590 | Acute nephritis | 30 | 3 | 4 | 4 | 1 | 6 | 2 | 1 | – | 2 | 3 | 1 | 3 |
| 591 | Nephritis with edema, including nephrosis | 24 | 1 | 1 | 2 | 3 | 3 | 1 | 2 | 2 | 1 | 2 | 1 | 5 |
| 592–594 | Chronic and unspecified nephritis and other renal sclerosis | 285 | 30 | 31 | 23 | 28 | 25 | 25 | 17 | 19 | 22 | 20 | 20 | 25 |
| 600 | Infections of kidney | 332 | 27 | 31 | 26 | 22 | 27 | 22 | 26 | 24 | 28 | 41 | 31 | 27 |
| 602, 604 | Calculi of urinary system | 30 | 1 | 4 | 7 | 3 | 6 | 1 | 1 | 1 | 1 | – | 2 | 3 |
| 601, 603, 605–609 | Other diseases of urinary system | 66 | 4 | 3 | 7 | 5 | 2 | 6 | 5 | 10 | 5 | 3 | 9 | 7 |
| 610 | Hyperplasia of prostate | 100 | 4 | 9 | 9 | 13 | 7 | 11 | 13 | 8 | 5 | 7 | 9 | 5 |
| 611–617 | Other diseases of male genital organs | 13 | 2 | 1 | 1 | – | – | 3 | – | 2 | 3 | – | 1 | – |
| 620, 621 | Diseases of breast | – | – | – | – | – | – | – | – | – | – | – | – | – |
| 622–637 | Diseases of female genital organs | 12 | 1 | – | 1 | – | 1 | 4 | 2 | 2 | – | – | – | 1 |
| XI. | DELIVERIES AND COMPLICATIONS OF PREGNANCY, CHILDBIRTH, AND THE PUERPERIUM | 27 | 1 | 1 | 3 | 4 | 4 | 4 | 2 | 2 | 2 | – | 4 | – |
| 640, 641, 681, 682, 684 | Sepsis of pregnancy, childbirth and puerperium | 4 | – | 1 | – | – | – | 2 | – | – | 1 | – | – | – |
| 642, 685, 686 | Toxemias of pregnancy and puerperium, etc.[1] | 3 | – | – | – | 2 | – | 1 | – | – | – | – | – | – |
| 643, 644, 670–672 | Hemorrhage of pregnancy and childbirth | 6 | – | – | – | – | 3 | – | – | 1 | 1 | – | 1 | – |
| 645 | Ectopic pregnancy | 1 | – | – | – | 1 | – | – | – | – | – | – | – | – |
| 650 | Abortion without mention of sepsis or toxemia | 3 | – | – | 1 | 1 | – | – | – | 1 | – | – | – | – |
| 651 | Abortion with sepsis | 2 | – | – | – | – | – | – | – | – | – | – | 2 | – |
| 652 | Abortion with toxemia, without mention of sepsis | – | – | – | – | – | – | – | – | – | – | – | – | – |
| Residual[1] | Other complications of pregnancy, childbirth and puerperium | 8 | 1 | – | 2 | – | 1 | 1 | 2 | – | – | – | 1 | – |
| XII. | DISEASES OF THE SKIN AND CELLULAR TISSUE | 72 | 5 | 7 | 9 | 11 | 6 | 4 | 2 | 6 | 7 | 7 | 4 | 4 |
| 690–698 | Infections of skin and subcutaneous tissue | 23 | – | 1 | 6 | 3 | 1 | 1 | – | 1 | 3 | 2 | 1 | 4 |
| 700–716 | Other diseases of skin and subcutaneous tissue | 49 | 5 | 6 | 3 | 8 | 5 | 3 | 2 | 5 | 4 | 5 | 3 | – |
| XIII. | DISEASES OF THE BONES AND ORGANS OF MOVEMENT | 98 | 12 | 10 | 5 | 7 | 7 | 11 | 12 | 8 | 4 | 10 | 9 | 3 |
| 720–725 | Arthritis and spondylitis | 47 | 4 | 3 | 2 | 4 | 3 | 5 | 6 | 6 | 3 | 4 | 5 | 2 |
| 726, 727 | Muscular rheumatism and rheumatism, unspecified | – | – | – | – | – | – | – | – | – | – | – | – | – |
| 730 | Osteomyelitis and periostitis | 7 | 2 | 1 | – | – | – | 1 | 1 | – | 1 | – | 1 | – |
| 737, 745–749 | Ankylosis and acquired musculoskeletal deformities | 4 | – | – | – | – | 1 | 1 | – | – | – | 2 | – | – |

**Table 13**

CAUSE OF DEATH[1]

DEATHS FROM IMPORTANT CAUSES BY PLACE OF OCCURRENCE AND BY PLACE OF RESIDENCE: 1960.

| Abbreviated Int. List No. | Cause of Death | Total deaths occurring in State. | Deaths of nonresidents occurring in State. | Deaths of residents occurring out of State. | Total deaths of residents. |
|---|---|---|---|---|---|
| | **All Causes**[2] | **57,197** | **1,571** | **934** | **56,560** |
| (1) | Tuberculosis of the respiratory system (1–8) | 286 | 9 | 3 | 280 |
| (2) | All other forms of tuberculosis (10–19) | 23 | 1 | – | 22 |
| (3) | Syphilis (20–29) | 46 | – | – | 46 |
| (4) | Typhoid fever (40) | – | – | 1 | 1 |
| (6) | Dysentery, all forms (45–48) | 1 | – | – | 1 |
| (7) | Scarlet fever and streptococcal sore throat (50, 51) | 1 | – | – | 1 |
| (8) | Diphtheria (55) | – | – | – | – |
| (9) | Whooping cough (56) | 1 | – | – | 1 |
| (10) | Meningococcal infections (57) | 21 | 2 | – | 19 |
| (12) | Acute poliomyelitis (80) | 4 | – | – | 4 |
| (14) | Measles (85) | 6 | – | – | 6 |
| (16) | Malaria (110–117) | – | – | – | – |
| (17) | Infectious hepatitis (92) | 19 | – | – | 19 |
| (17) | All other diseases classified as infective and parasitic (residual) | 122 | 8 | 5 | 119 |
| (18) | Malignant neoplasms (140–205) | 9,844 | 336 | 118 | 9,626 |
| (19) | Benign and unspecified neoplasms (210–239) | 136 | 11 | 4 | 129 |
| (20) | Diabetes mellitus (260) | 986 | 25 | 10 | 971 |
| (21) | Anemias (290–293) | 79 | 11 | 1 | 69 |
| (22) | Vascular lesions affecting central nervous system (330–334) | 6,073 | 91 | 99 | 6,081 |
| (23) | Nonmeningococcal meningitis (340) | 92 | 3 | – | 89 |
| (24) | Rheumatic fever (400–402) | 12 | – | – | 12 |
| (25) | Chronic rheumatic heart disease (410–416) | 716 | 55 | 8 | 669 |
| (26) | Arteriosclerotic heart disease, including coronary disease (420) | 19,079 | 387 | 335 | 19,027 |
| (26) | Degenerative heart disease (421,422) | 1,363 | 19 | 25 | 1,369 |
| (27) | Other diseases of heart (430–434) | 764 | 15 | 9 | 758 |
| (28) | Hypertension with heart disease (440–443) | 1,856 | 26 | 20 | 1,850 |
| (29) | Hypertension without mention of heart (444–447) | 380 | 8 | 4 | 376 |
| (30) | Influenza (480–483) | 80 | 2 | – | 78 |
| (31) | Pneumonia (490–493) | 2,667 | 39 | 19 | 2,647 |
| (32) | Bronchitis (500–502) | 180 | 5 | 4 | 179 |
| (33) | Ulcer of stomach and duodenum (540, 541) | 433 | 16 | 10 | 427 |
| (34) | Appendicitis (550–553) | 49 | 1 | 1 | 49 |
| (35) | Intestinal obstruction and hernia (560, 561, 570) | 314 | 14 | 4 | 304 |
| (36) | Gastritis, duodenitis, enteritis, and colitis, except diarrhea of the newborn (543, 571, 572) | 195 | 8 | – | 187 |
| (37) | Cirrhosis of the liver (581) | 881 | 18 | 13 | 876 |
| (38) | Nephritis and nephrosis (590–594) | 350 | 19 | 8 | 339 |
| (39) | Hyperplasia of prostate (610) | 101 | 1 | – | 100 |
| (40) | Complications of pregnancy, childbirth and the puerperium (640–652, 660, 670–689) | 29 | 2 | – | 27 |
| (41) | Congenital malformations (750–759) | 629 | 60 | 9 | 578 |
| (42) | Birth injuries, postnatal asphyxia and atelectasis (760–762) | 607 | 18 | 5 | 594 |
| (43) | Infections of the newborn (763–768) | 99 | 2 | 2 | 99 |
| (44) | Other diseases peculiar to early infancy, and immaturity unqualified (769–776) | 873 | 29 | 9 | 853 |
| (45) | Senility without mention of psychosis, ill-defined and unknown causes (780–795) | 195 | 6 | 50 | 239 |
| (46) | Arteriosclerosis (450) | 1,186 | 10 | 8 | 1,184 |
| (46) | All other diseases (residual) | 3,544 | 148 | 60 | 3,456 |
| (47) | Motor-vehicle accidents (810–835) | 633 | 67 | 34 | 600 |
| (48) | Railroad accidents and injuries (800–802) | 18 | – | 3 | 21 |
| (48) | Air-transport accidents (860–866) | 73 | 42 | 8 | 39 |
| (48) | Burns (fire, explosion, scalds, conflagration, etc.) (transport accidents excepted) (915–917) | 200 | 4 | – | 196 |
| (48) | Accidental drowning (850, 851, 929) | 122 | 8 | 9 | 123 |
| (48) | Accidental falls (transport accidents excepted) (900–904) | 1,026 | 16 | 10 | 1,020 |
| (48) | All other accidents | 307 | 12 | 20 | 315 |
| (49) | Suicide and self-inflicted injury (963, 970–979) | 429 | 14 | 6 | 421 |
| (50) | Homicide and operations of war (964, 965, 980–985, 990–999) | 67 | 3 | – | 64 |

| (21) | Anemias (290–293) | – | – | – | – | – | – | 2 | – | – | – |
| (22) | Vascular lesions affecting central nervous system (330–334) | 4 | 37 | 6 | 2 | 2 | – | 72 | 10 | 11 | 7 |
| (23) | Nonmeningococcal meningitis (340) | – | – | – | – | – | – | – | – | – | – |
| (24) | Rheumatic fever (400–402) | – | 1 | – | – | – | – | 1 | – | – | – |
| (25) | Chronic rheumatic heart disease (410–416) | 1 | 5 | – | – | – | – | 5 | – | 2 | 1 |
| (26) | Arteriosclerotic heart disease, including coronary disease (420) | 1 | 152 | 25 | 1 | 9 | – | 285 | 22 | 36 | 21 |
| (26) | Degenerative heart disease (421, 422) | 1 | 8 | 1 | – | – | – | 9 | 2 | 2 | – |
| (27) | Other diseases of heart (430–434) | 1 | 7 | – | – | – | – | 10 | – | 2 | 1 |
| (28) | Hypertension with heart disease (440–443) | – | 14 | – | – | – | – | 24 | 1 | 1 | 2 |
| (29) | Hypertension without mention of heart (444–447) | – | 7 | – | – | – | – | 4 | 2 | – | – |
| (30) | Influenza (480–483) | – | – | – | – | – | – | 1 | – | 1 | – |
| (31) | Pneumonia (490–493) | – | 21 | 6 | – | 1 | – | 27 | 3 | 5 | 4 |
| (32) | Bronchitis (500–502) | – | 1 | – | – | – | – | 2 | – | – | – |
| (33) | Ulcer of stomach and duodenum (540, 541) | – | 4 | – | – | – | – | 9 | 1 | 1 | – |
| (34) | Appendicitis (550–553) | – | – | – | – | – | – | 1 | – | – | – |
| (35) | Intestinal obstruction and hernia (560, 561, 570) | 3 | 1 | 1 | – | – | – | 2 | – | – | – |
| (36) | Gastritis, duodenitis, enteritis, and colitis, except diarrhea of the newborn (543, 571, 572) | – | 1 | – | – | – | – | 7 | 2 | – | – |
| (37) | Cirrhosis of the liver (581) | – | 5 | – | – | 1 | – | 13 | 1 | 4 | – |
| (38) | Nephritis and nephrosis (590–594) | – | – | 1 | 1 | – | – | 6 | – | 1 | 2 |
| (39) | Hyperplasia of prostate (610) | – | – | – | – | – | – | 1 | – | – | – |
| (40) | Complications of pregnancy, childbirth and the puerperium (640–652, 660, 670–689) | – | – | – | – | – | – | – | – | – | – |
| (41) | Congenital malformations (750–759) | – | 12 | – | – | – | – | 9 | 1 | 2 | 2 |
| (42) | Birth injuries, postnatal asphyxia and atelectasis (760–762) | – | 7 | – | – | 1 | – | 8 | – | 1 | – |
| (43) | Infections of the newborn (763–768) | – | 1 | – | – | – | – | – | – | – | – |
| (44) | Other diseases peculiar to early infancy, and immaturity unqualified (769–776) | – | 7 | 1 | – | – | – | 10 | – | 3 | 2 |
| (45) | Senility without mention of psychosis, ill-defined and unknown causes (780–795) | – | 2 | 1 | – | – | – | 4 | 1 | – | 1 |
| (46) | Arteriosclerosis (450) | – | 11 | – | 1 | 1 | – | 12 | – | – | – |
| (46) | All other diseases (residual) | 1 | 17 | 2 | – | 2 | – | 44 | 3 | 5 | 6 |
| (47) | Motor-vehicle accidents (810–835) | 1 | 1 | 1 | – | – | – | 4 | – | 3 | – |
| (48) | Railroad accidents and injuries (800–802) | – | – | – | – | – | – | – | – | – | – |
| (48) | Air-transport accidents (860–866) | – | – | – | – | – | – | – | – | – | – |
| (48) | Burns (fire, explosion, scalds, conflagration, etc.) (transport accidents excepted) (915–917) | – | 1 | – | – | – | – | 4 | – | – | – |
| (48) | Accidental drowning (850, 851, 929) | – | – | – | – | – | – | – | – | 1 | – |
| (48) | Accidental falls (transport accidents excepted) (900–904) | – | 8 | 2 | 1 | 1 | – | 15 | 1 | – | – |
| (48) | All other accidents | – | 2 | 1 | – | – | – | 1 | – | – | – |
| (49) | Suicide and self-inflicted injury (963, 970–979) | – | 4 | – | – | – | – | 4 | 3 | 2 | – |
| (50) | Homicide and operations of war (964, 965, 980–985, 990–999) | – | – | – | – | – | – | 1 | – | – | – |

Table 14

| Abbreviated Int. List No. | Cause of Death.[1] | Deaths from Wakefield. | Waltham. | Watertown. | Wayland. | Westford. | Weston. | Wilmington. | Winchester. | Woburn. | Nantucket County. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | **All Causes.[2]** | 226 | 548 | 431 | 77 | 46 | 54 | 78 | 149 | 266 | 53 |
| (1) | Tuberculosis of the respiratory system (1–8) | – | 2 | 3 | – | – | 1 | – | – | – | – |
| (2) | All other forms of tuberculosis (10–19) | – | – | – | – | – | – | 1 | – | – | – |
| (3) | Syphilis (20–29) | – | – | 3 | – | – | – | – | – | 1 | – |
| (4) | Typhoid fever (40) | – | – | – | – | – | – | – | – | – | – |
| (6) | Dysentery, all forms (45–48) | – | – | – | – | – | – | – | – | – | – |
| (7) | Scarlet fever and streptococcal sore throat (50, 51) | – | – | – | – | – | – | – | – | – | – |
| (8) | Diphtheria (55) | – | – | – | – | – | – | – | – | – | – |
| (9) | Whooping cough (56) | – | – | – | – | – | – | – | – | – | – |
| (10) | Meningococcal infections (57) | – | – | – | – | – | – | – | – | 1 | – |
| (12) | Acute poliomyelitis (80) | – | – | – | – | – | – | – | – | – | – |
| (14) | Measles (85) | – | – | – | – | – | – | – | – | – | – |
| (16) | Malaria (110–117) | – | – | – | – | – | – | – | – | – | – |
| (17) | Infectious hepatitis (92) | – | – | – | – | – | – | – | – | – | – |
| (17) | All other diseases classified as infective and parasitic (residual) | 2 | 1 | 2 | – | – | – | – | 1 | – | – |
| (18) | Malignant neoplasms (140–205) | 49 | 87 | 89 | 13 | 8 | 7 | 9 | 27 | 37 | 2 |
| (19) | Benign and unspecified neoplasms (210–239) | 1 | 1 | 2 | – | – | – | – | – | – | – |
| (20) | Diabetes mellitus (260) | 4 | 9 | 4 | 2 | 1 | – | 2 | 2 | 4 | 1 |
| (21) | Anemias (290–293) | – | 3 | – | – | – | – | – | – | 1 | – |
| (22) | Vascular lesions affecting central nervous system (330–334) | 33 | 59 | 47 | 10 | 5 | 4 | 6 | 19 | 34 | 7 |
| (23) | Nonmeningococcal meningitis (340) | – | – | – | – | – | – | 3 | – | – | – |
| (24) | Rheumatic fever (400–402) | – | – | – | – | – | – | – | – | – | – |
| (25) | Chronic rheumatic heart disease (410–416) | 7 | 10 | 5 | 3 | – | 1 | – | – | 7 | 1 |
| (26) | Arteriosclerotic heart disease, including coronary disease (420) | 73 | 162 | 136 | 24 | 14 | 17 | 25 | 53 | 91 | 17 |
| (26) | Degenerative heart disease (421, 422) | 9 | 18 | 9 | 1 | – | – | 2 | 1 | 1 | 2 |
| (27) | Other diseases of heart (430–434) | 1 | 4 | 8 | 3 | 1 | 1 | – | 2 | 4 | 3 |
| (28) | Hypertension with heart disease (440–443) | 1 | 21 | 14 | 2 | 1 | 2 | 1 | 7 | 14 | – |
| (29) | Hypertension without mention of heart (444–447) | 1 | 8 | – | – | 1 | – | 1 | 2 | 1 | – |
| (30) | Influenza (480–483) | 1 | 1 | 1 | 1 | – | – | – | – | 1 | 1 |
| (31) | Pneumonia (490–493) | 2 | 23 | 19 | 2 | 1 | 5 | 1 | 3 | 6 | 4 |
| (32) | Bronchitis (500–502) | 1 | 1 | – | – | – | – | – | – | – | – |
| (33) | Ulcer of stomach and duodenum (540, 541) | 2 | 1 | 3 | – | 1 | – | 2 | 2 | 9 | 2 |
| (34) | Appendicitis (550–553) | – | 1 | 1 | – | 1 | – | – | – | – | – |
| (35) | Intestinal obstruction and hernia (560, 561, 570) | – | 2 | 1 | 1 | – | – | – | 2 | 1 | – |
| (36) | Gastritis, duodenitis, enteritis, and colitis, except diarrhea of the newborn (543, 571, 572) | 1 | 1 | 1 | – | – | – | 1 | – | – | – |
| (37) | Cirrhosis of the liver (581) | 2 | 17 | 6 | – | 1 | 1 | 1 | 1 | 3 | 2 |
| (38) | Nephritis and nephrosis (590–594) | 2 | 5 | 3 | – | – | – | 1 | 2 | 2 | 1 |
| (39) | Hyperplasia of prostate (610) | 1 | – | – | – | 1 | – | – | – | – | – |
| (40) | Complications of pregnancy, childbirth and the puerperium (640–652, 660, 670–689) | – | – | – | – | – | – | – | – | – | 1 |
| (41) | Congenital malformations (750–759) | – | 14 | 4 | 1 | – | 1 | – | 1 | – | – |
| (42) | Birth injuries, postnatal asphyxia and atelectasis (760–762) | 2 | 11 | 2 | 3 | – | – | – | 1 | 5 | 1 |
| (43) | Infections of the newborn (763–768) | – | – | – | – | – | – | – | – | – | – |
| (44) | Other diseases peculiar to early infancy, and immaturity unqualified (769–776) | – | 7 | 5 | 1 | – | 2 | 4 | 3 | 7 | 1 |
| (45) | Senility without mention of psychosis, ill-defined and unknown causes (780–795) | 1 | 1 | 2 | – | 1 | 1 | – | – | 1 | 1 |
| (46) | Arteriosclerosis (450) | 7 | 5 | 5 | 1 | 2 | 2 | 1 | 3 | 4 | – |
| (46) | All other diseases (residual) | 13 | 38 | 30 | 6 | 4 | 6 | 8 | 9 | 21 | 3 |
| (47) | Motor-vehicle accidents (810–835) | 1 | 8 | 3 | 1 | 1 | 1 | – | 2 | 1 | 1 |
| (48) | Railroad accidents and injuries (800–802) | – | – | – | – | – | – | – | – | 1 | – |
| (48) | Air-transport accidents (860–866) | – | – | 1 | – | – | – | 2 | – | 1 | – |
| (48) | Burns (fire, explosion, scalds, conflagration, etc.) (transport accidents excepted) (915–917) | – | 1 | 4 | – | – | – | 4 | – | – | – |
| (48) | Accidental drowning (850, 851, 929) | – | 2 | 1 | – | – | – | – | 1 | – | – |
| (48) | Accidental falls (transport accidents excepted) (900–904) | 6 | 16 | 14 | 1 | 2 | 1 | 1 | 2 | 6 | – |
| (48) | All other accidents | – | 5 | 2 | – | – | – | 1 | 1 | – | 1 |
| (49) | Suicide and self-inflicted injury (963, 970–979) | 3 | 2 | 1 | 1 | – | 1 | 1 | 2 | – | 1 |
| (50) | Homicide and operations of war (964, 965, 980–985, 990–999) | – | 1 | – | – | – | – | – | – | 1 | – |

[1] The numbers of the titles of the detailed International list included in each title of the abbreviated list appear in parentheses.

[2] Exclusive of stillbirths.

| 1959 | 2,373 | 1,120 | 608 | 149 | 165 | 23 | 5 | 8 | 409 | 56 |
| 1960 | 2,314 | 1,020 | 621 | 104 | 197 | 38 | – | 1 | 421 | 64 |

[1] Allocated since 1935.
[2] Conflagration excepted up to and including 1948.

**Table 19** — Death Rates per 100,000 Population based on Annual Average Number of Deaths for the Five-year Period of which the Census Year is the Median Year[1]: Census Years 1930 to 1955.

| Years. | All causes.[2] | Scarlet fever. | Diphtheria and croup. | Tuberculosis of the respiratory system. | Measles. | Cancer. | Diabetes. | Heart Disease. | Nephritis. |
|---|---|---|---|---|---|---|---|---|---|
| 1930 | 1,181.9 | 2.4 | 4.3 | 56.5 | 3.0 | 136.9 | 24.5 | 279.0 | 85.6 |
| 1935 | 1,167.2 | 1.5 | 1.0 | 42.5 | 1.0 | 149.9 | 30.9 | 347.8 | 75.6 |
| 1940 | 1,150.1 | .4 | .3 | 34.5 | .3 | 163.3 | 34.9 | 403.0 | 65.1 |
| 1945 | 1,150.3 | .2 | .4 | 35.3 | .3 | 170.9 | 35.2 | 429.2 | 50.7 |
| 1950 | 1,100.2 | –[3] | .4 | 20.4 | .2 | 182.8 | 25.5 | 463.9 | 23.7 |
| 1955 | 1,085.5 | –[3] | –[3] | 9.0 | .1 | 191.7 | 19.9 | 461.7 | 9.8 |

[1] This method eliminates any peculiarities in the census year and makes the rates more typical of the period as a whole.
[2] Exclusive of stillbirths.
[3] Less than one-tenth of one per 100,000 population.

Table 20

| Abbreviated List No. | Cause of Death.[1] | Number of Allocated Deaths.[2] | | | | |
|---|---|---|---|---|---|---|
| | | 1960. | 1959. | 1958. | 1957. | 1956. |

## INTRODUCTION.

**Birth Registration.** — Birth registration has been compulsory in Massachusetts since Colonial times. It was one of the first States to be included in the registration area of the United States Census Bureau.

The physician* in attendance at the birth of a child is required, within forty-eight hours, to give notice and make a complete return within fifteen days of the facts required for record to the clerk of the town of birth. Parents, within forty days are required to give notice to the registration official of children born to them.

In addition to the above, persons in charge of a hospital, almshouse, or other institution, public or private, are required to give, on or before the fifth day of each month, notice to the town clerk of every birth occurring among the persons in such institution during the preceding month. The law also provides that the clerk of each town may annually in January ascertain the facts required for record of all children born in his town during the preceding year and resident therein.

Returns are made in the first instance to the local clerks of the city or town in which the birth occurred with the exception of Boston where the City Registrar is the official in charge.

The records on file in the Division of Vital Statistics are attested copies of the originals filed with local officials. The law has required the filing at this central record office since 1841. During this time 7,679,677 births have been filed and indexed. Since the establishment of the office of State Registrar of Vital Statistics in 1918, a systematic campaign has been carried on to obtain prompt and complete compliance with the birth registration laws. People are beginning more and more to realize the importance of birth records, so complete registration should soon be an accomplished fact.

**Importance of Birth Records.** — Records of birth are becoming more important every day. Government and other agencies are demanding proof of citizenship through birth certificates. This has caused a tremendous increase in the issuance of certified copies of birth records. The applications for certified copies are being made in person and by mail from all parts of the country. As Massachusetts is one of the few states that have records previous to 1912 there is a great demand at all times. This great demand for birth records will continue as they are also required for Old Age Assistance, Social Security and for allotment purposes.

There is hardly a relation of life, social, legal, or economic, in which the evidence furnished by an accurate registration of births may not prove to be of the greatest value, not only to the individual, but also to the public at large. It is not only an

*Midwives are not recognized in Massachusetts. The courts have held that the practice of midwifery is the practice of medicine, and as there is no provision under the law for licensing midwives, any one who practices midwifery is violating the medical registration laws.

act of civilization to register Birth Certificates, but also good business, for they are frequently used in many practical ways:

1. As evidence to prove the age and legitimacy of heirs;
2. As proof of age to determine the validity of a contract entered into by an alleged minor;
3. As evidence to establish age and proof of citizenship and descent; in order to vote;
4. As evidence to establish the right of admission to the professions and to many public offices;
5. As evidence of legal age to marry;
6. As evidence to prove the pension claims of widows and orphans;
7. As evidence to determine the liability of parents for the debts of a minor;
8. As evidence in the administration of estates, the settlement of insurance and pensions;
9. As evidence to prove the irresponsibility of children under age for crime and misdemeanor, and various other matters in the criminal statute;
10. As evidence in the enforcement of laws relating to education and to child labor;
11. As evidence to determine the relations of guardians and wards;
12. As proof of citizenship in order to obtain a passport;
13. As evidence in the claim for exemption from or the right to jury and military service.

Copies of records of births occurring during the preceding year are required by statute to be forwarded annually to the Division of Vital Statistics but many of the clerks co-operate with the Division by making periodic returns during the year.

After the statutory period has elapsed for filing copies of the records with the Department of the Secretary of the Commonwealth, no delayed returns are accepted unless by affidavit made by the parents, supported by written evidence at the time of birth, or by affidavit of the attending physician at the time of birth, or based upon a writing made at the time by a person since deceased charged with making the return in the first instance, except that in cases of delayed returns when no deponent is available the clerk may under the provisions of Chapter 542, Acts of 1945, accept a return without affidavit on written evidence satisfactory to him and if he rejects an affidavit for filing a delayed return, the person concerned can appeal to a Probate Judge in the county in which the birth occurred, and if the Probate Judge orders the birth to be recorded, the clerk is then required to make a record of the birth. As the evidential value of a record depends for its authenticity upon the fact that it is made contemporaneously with the happening of the event recorded, the registrars are required to exercise considerable care by requesting written evidence made soon after the time of birth before accepting delayed returns, particularly if it is some years after the birth occurred. This holds true of corrections which can only be made in accordance with the facts as they actually existed at the time the birth occurred, with the exception of an illegitimate child who is legitimatized through the subsequent marriage of its parents; in these cases the record may be amended, so that the child will appear on the record as the legitimate offspring of its parents.

As a means of eliminating errors from physicians' returns of births, Chapter 434, Acts of 1941 requires that registrars send a supplemental report of the physician's return to the parents for their verification; and when the certificate is returned properly signed by a parent it is filed with the physician's certificate. This is a splendid system as it eliminates any claim later that an error has been made in the return of birth.

**Adoptions.** — Chapter 97, Acts of 1938 amended the statute relating to adoptions and provides that legally adopted children may have their birth records amended so as to appear as the natural children of the adoptive parents. Illegitimate children who have had their names legally changed may have their birth records amended to agree with the name decreed by court.

**Certain Records Impounded.** — Returns and records of illegitimate and abnormal sex births are impounded by statute from inspection. The law prohibits the issuance of copies of such records to the general public. These records can be inspected by or copies issued only to the child, the mother, attorney for the child, its legal guardian or to others by order of the court. Chapter 65, Acts of 1945 provided that in cases of illegitimate records which have been amended to appear as legitimate records through intermarriage of the parents or by adoption, no notation shall appear on certified copies that are issued that amendment has been made. This is a further protection to the illegitimate child.

**Treatment of Infants' Eyes after Birth.** — Chapter 46, Acts of 1943 requires attending physician to record on the birth certificate the use of a prophylactic remedy with which he has treated the eyes of a child whose birth he has personally attended.

**Allocation.** — Births are charged to the place of the event and also are allocated to the place of residence of the parents. This insures as near a true rate as possible and has a marked effect on municipalities which are large hospital centers. These cities and towns in the past have been charged with a high rate and small communities without hospital facilities have shown a low rate. The usual place of residence has been used as a basis for all births occurring outside the State as well as for those in the State. In the case of institutions, births have been allocated to the place of residence before entrance.

**Live Births.** — In the Commonwealth in 1960 there were 115,722 live births registered, an increase of 79 or .1 per cent as compared with the number registered in 1959. The allocated births numbered 114,018 for 1960.

**Birth Rate.** — In proportion to the total population, the total births registered were equivalent to a rate of 22.5 per 1,000 population, and is a decrease of .7 per 1,000 over that of 1959. This rate is .4 per 1,000 above the average for the five years 1955 to 1959. The allocated births for 1960 had a birth rate of 22.0.

**Changes in Birth Rate.** — The birth rate for the Commonwealth attained the highest point on record, 30.2 in the year 1857. Since then the rate, although fluctuating considerably, has shown a marked decline, and a gradual decline since 1924. Starting with 1940 the trend has been upward with the exception of 1944 and 1945, culminating in the highest number of recorded births in the history of the State in 1957. Though the registered births in the period 1947 to 1956 are below this all-time high, they are still larger than the previous recorded high of 95,731 in 1917. During this period (with the exception of 1952 and 1956), the infant death rate has also declined, the infant mortality rate for 1951 being the lowest ever recorded, so that the number of babies who survive the dangers of infancy is becoming steadily greater. This fact is shown in the infant mortality tables.

**Stillbirths.** — Chapter 113, Acts of 1945, defines stillborn children for the purposes of Vital Statistics: "A stillborn child shall be deemed to be a foetus born after a period of gestation of not less than 20 weeks, in which foetus there is no attempt at respiration, no action of heart and no movement of voluntary muscle —." Previous to 1936 there was no statute defining a stillbirth, consequently many returns had been made which, under this definition, would not have been returned. The statute now clearly defines a stillbirth and precludes any misunderstanding as to what returns should be made.

Stillbirths allocated in 1960 numbered 1,314. The rate per 1,000 live births allocated was 13.7 in 1959, 14.6 in 1958, 14.0 in 1957 and 14.6 in 1956. The rate for 1960 was 11.4.

**Birth Rates, Highest.** — The municipalities having 15,000 inhabitants or more showing the highest registered birth rates in 1960 are: Winchester, 90.8; Norwood, 67.0; Methuen, 62.3; Chelsea, 59.1; Attleboro, 50.6 and Holyoke, 50.4.

Variations in the birth rates of different communities may be partially accounted for by differences in the proportions of married women of child-bearing age residing therein, and by the presence of hospitals to which expectant mothers go from neighboring cities and towns in order to take advantage of the best medical advice and obstetrical care during pregnancy and childbirth. The allocated birth rates help to substantiate this statement. The communities showing the highest rates are: Woburn, 28.4; Billerica, 28.1; Framingham, 28.0; Tewksbury, 27.2; Peabody, 26.5; Stoughton, 26.2; Somerville, 25.8 and Marlborough, 25.7. Worcester which showed the highest registered rate (34.3) of any place in the State of over 100,000 population has a rate of 20.3 through the allocation of births.

**Sex Proportion at Birth.** — It has never been determined whether the higher proportion of masculine than of feminine births is the result of definite causes or not. Allocated births numbered 58,919 males and 55,096 females in 1960, with 1,069 as a ratio of male to female births.

**Plural Births.** — In 1960 there were 1,192 cases of plural births (allocated); 1,181 cases of twins and 11 cases of triplets, or 10.4 pairs of twins per 1,000 live births (allocated), and one-tenth of one case of triplets.

**Natural Increase.** — The excess of the birth rate over the death rate shows the ratio at which the community is reproducing itself by natural increases. In every year since the compilation of birth statistics was started the birth rate has been higher than the death rate.

The rate of natural increase for 1960 was 11.3 per 1,000 population for registered births and also averaged 11.1 for the five years 1955 to 1959. The rate of increase was 11.1 for allocated births in 1960.

The number of births is greatly in excess of the number of deaths, and this fact coupled with the steady decrease in infant mortality, has resulted in a net gain in the natural increase in population. The excess of births over deaths amounted to 108.7 per cent in 1959; 109.1 per cent in 1958; 110.5 per cent in 1957 and 110.6 per cent in 1956. The excess of registered births over registered deaths in 1960 was 58,525 or 102.3 per cent, while the increase of allocated births over allocated deaths was 57,458 or 101.8 per cent.

For comparisons previous to 1900 relative to the natural increase from 1851, and for figures from that date up to and including 1919, reference may be made to the Annual Report of Vital Statistics of Massachusetts for the year ending December 31, 1919, Public Document No. 1.

## INTRODUCTION.

**Marriage Registration.** — The public registration of marriages has been required for many years in Massachusetts. Records of marriage are made in the first instance in the cities and towns of the State where the contracting parties dwell and if the ceremony is solemnized in a town other than where the parties reside, in the town where the ceremony is performed.

Since 1841 it has been required that copies of these records be forwarded annually to the Secretary of the Commonwealth, but many City and Town Clerks co-operate by making periodic returns throughout the year. From 1841 to 1960, inclusive, there have been 5,909,989 marriages reported, recorded and tabulated in this department.

**Source of Data.** — The marriage statistics in this report are compiled from attested copies of the records of marriages recorded in every city and town. Persons intending to be joined in marriage in Massachusetts must file a notice of intention in the town in which they respectively dwell, and this notice of intention must contain the facts required for record and be sworn to by each of the parties to the marriage. Chapter 561, Acts of 1943 provides that in cases of persons, one or both of whom is in the armed forces, such notice may be given by either party, provided one is a resident. If a marriage is performed in a town other than the town issuing the license, a copy of the license is required to be made and forwarded by the clergyman or magistrate to the clerk of the municipality in which the ceremony was performed. Five days after the notice of intention has been filed, unless a court waives the requirement, the marriage license may be issued with all the facts set forth in the notice of intention which are required for record. This certificate is presented to the clergyman or magistrate before whom the marriage is performed, and the facts as to the ceremony are certified by that person. Between the first and tenth days of the month following the ceremony the license or licenses are required to be returned by the clergyman or magistrate to the office or offices issuing the same.

**Number of Marriages.** — There has been an increase in the number of marriages solemnized in 1960, 34,050, which was 420 more than 1959. Marriages in previous years numbered 33,630 in 1959, 33,449 in 1958, 34,828 in 1957 and 36,132 in 1956.

**Solemnization.** — A marriage may be solemnized in any place within the Commonwealth by a minister of the gospel who resides in the Commonwealth, or, who if a nonresident is the pastor of a church or denomination duly established in the Commonwealth and who is recognized by his church or denomination as duly ordained and in good and regular standing as a minister of such church or denomination including ordained deacons in the Methodist Church; by a rabbi of the Israelitish faith, duly licensed by a congregation of said faith established in the Commonwealth, who has filed with the clerk or registrar of the city or town where such congregation is established a certificate of the establishment of the synagogue therein, the date of his appointment thereto, and of the term of his engagement; by a justice of the peace if he is also clerk or assistant clerk of a city or town, or a registrar or assistant registrar, in the city or town where he holds such office, or, if he is also clerk or assistant clerk of a court, in the city or town where the court is authorized to be held, or, if he has been designated as a justice of the peace to

solemnize marriages in the city or town where he resides; and it may be solemnized among Friends or Quakers according to the usages of their societies; and it may be solemnized among the Baha'is, by the Chairman of an incorporated local spiritual assembly of the Baha'is according to the usage of their society; and a specified marriage may be performed by a nonresident clergyman commissioned by the Governor in accordance with the provisions of General Laws, Chap. 207, Sec. 39; but no person shall solemnize a marriage in the Commonwealth unless he can read and write the English language.

Section 33 of Chapter 207 of General Laws (Ter. Ed.) as amended provides for filing evidence of marriage of residents of Massachusetts who have been married in another State or without the United States, with the city or town clerk of their place of domicile at the time of the marriage.

Section 28A of Chapter 207 of the General Laws (Ter. Ed.) as amended provides for premarital blood examination. Certificates of medical examinations must be presented by both parties to the intended marriage before the marriage certificate is issued.

**Accuracy.** — The registration of marriages presents fewer difficulties than the registration of birth and death records and the statistics should be nearly 100 per cent perfect.

Every precaution has been taken to see that the statutes pertaining to the solemnization of marriage are strictly enforced, but as there is no public registration of ministers of the gospel in Massachusetts, it is not always possible to get in touch with the persons responsible for making returns of marriages solemnized by them. To guard against the possibility of marriages being performed on one license where two are required, on an out-of-state license, or on a license that has become invalid because of lapse of time, copies have been prepared of the marriage laws and are forwarded, upon request, to all persons interested, and are sent to the city and town clerks, together with posters setting forth the legal impediments to marriage, which are required to be posted in their offices.

The errors in solemnizing and returning a record of marriage, if any, are due to the lack of information as to the requirements of the statute rather than to any wilful attempt to evade the requirements of the law.

Marriage licenses issued to residents are valid throughout the Commonwealth, regardless of the residence of either party and many marriages are performed in cities and towns other than the place where either party lived. Persons who do not reside in the Commonwealth must file their intention with the clerk of the city or town where they propose to have the marriage solemnized and the marriage must be solemnized in that particular municipality.

The principal source of error in the records of marriage comes about through the carelessness or ignorance of one of the parties in filing the notice of intention as to the facts concerning the other party. These certificates are compared in the Division of Vital Statistics and every effort is made to have the certificates agree, but considerable confusion and delay follow from this situation.

**Purpose.** — The practical purposes of marriage records are:

1. As evidence to establish dower and curtesy rights of husband and wife.
2. To prove legality as to claims of inheritance.
3. As evidence upon which to base subsequent records concerning the parties.
4. For Governmental pension purposes.
5. For pensions under Employees Pension Laws.
6. For insurance, pension and retirement purposes.
7. To establish legal settlement for public aid and the settlement of dependent children of parents.
8. For naturalization and passport purposes.
9. To prove legitimacy of children.

The following tables contain the number of marriages solemnized:

## INTRODUCTION.

**Causes for Divorce.** — Causes for which divorce from the bonds of matrimony may be granted in Massachusetts under the provisions of Chapter 208, Sections 1 and 2 of the General Laws (Ter. Ed.) as amended, are as follows:—

1. Adultery.
2. Impotency.
3. Desertion for three consecutive years next prior to the filing of the libel.
4. Gross and confirmed habits of intoxication caused by the voluntary and excessive use of intoxicating liquor, opium or other drugs.
5. Cruel and abusive treatment.
6. Neglect to provide.
7. Sentence to imprisonment at hard labor for five years or more.

A marriage may be declared void in consequence of violation of the provisions of the laws concerning marriage; that is, a separation may be granted because of the demonstration of conditions obtaining at the time of, or previous to, the alleged marriage, which show that there never was a legal marriage.

**Source of Data.** — The statistics of divorce presented in this report are compiled from returns made to the Secretary of the Commonwealth annually by the clerks of courts and registers of probate for the several counties.

Since 1952 the names and addresses of divorced persons have been returned to the Secretary of the Commonwealth by the courts.

The Probate Court and the Superior Court have concurrent jurisdiction to hear libels for divorce and to determine the same in a similar manner.

**Applications for Divorce.** — The courts granted over 4 petitions out of every 5 filed. This proportion fluctuated considerably during the twenty-five years from 1936 to 1960, the highest proportion of applications being granted in 1940 (90.7 per cent), and the lowest proportion in 1952 (84.1 per cent). During this entire period 86.8 per cent of all applications were granted, .7 per cent were refused, and 12.5 per cent were dismissed.

**Contested Cases.** — Of the total number of applications for divorces during the twenty-five years from 1936 to 1960, only 33.8 per cent were contested. In 1960, of the 6,391 applications for divorce, only 2,463 or 38.5 per cent, were contested, and of the 5,592 divorces granted, 2,016 or 36.1 per cent, were contested. The proportion of contested cases is larger for divorces granted to the wife (37.1 per cent) than for those granted to the husband (32.2 per cent).

**Number of Divorces.** — Divorces granted in 1960 numbered 5,592, an increase of 244, or 4.6 per cent more than the number granted in 1959 and 89 more than the average number granted for the five-year period 1955 to 1959.

**Divorce Rates.** — The number of divorces granted per 100,000 population was 108.6 as compared with 107.5 in 1959, 110.4 in 1958, 110.0 in 1957 and 117.7 in 1956.

Divorce rates based on the married population, i.e., the number of divorces per 100,000 married population, are more significant than rates based upon the total population, because of the elimination of possible variations in the proportion married, and because of the fact that divorce can arise only among the married. Rates calculated in this manner are shown in Table 57, for the census years 1930 to 1955. In this table the number of divorces shown for the census years 1930 to 1955 is not the actual number in that year, but the annual average for the five-year period of which the census year is the median. This method eliminates any peculiarities in the census year which may have affected divorce and makes the figures more typical of the period as a whole.

**Party to Which Granted.** — Over three-fourths (76.7 per cent) of the total number of divorces in the period 1936 to 1960 were granted to the wife. In other words, divorces obtained by the wife are more than twice as numerous as those obtained by the husband. It may be that husbands more often than wives give occasion for divorce but the difference may be partially explained by the fact that without any reference to the question of which party is the more frequently responsible for the marital unhappiness, the wife has more legal grounds for divorce than the husband, because certain well known and comparatively common grounds are more readily applicable against the husband than against the wife. For example, neglect to provide, a common legal cause for divorce on the part of the wife, and cruelty, in so far as it is physical cruelty, are not ordinarily available grounds for a husband, although men are sometimes granted divorces on the ground of cruelty.

Moreover, where each party desires divorce, it is more likely that the wife, more often than the husband will make the application, since a cause for which the wife would be granted a divorce might reflect less favorably upon the parties than would a cause for which the husband might be granted a divorce.

The proportion of divorces granted to the wife fluctuated between 72.3 per cent in 1946, and 78.7 in 1955, as compared with 76.7 per cent for the entire period from 1936 to 1960.

**Divorces Classified by Causes.** — The statistics concerning the cause of divorce deal with the legal cause as ascertained from the court records. It should be borne in mind, however, that the cause for which a divorce is granted by the courts is not necessarily the underlying reason for the marital unhappiness, and that the value of statistics of divorce as an index to the actual causes is as a consequence impaired.

Divorces granted on the ground of desertion have decreased 43.1 per cent in the twenty-five-year period 1936 to 1960 while the number of divorces granted for adultery has decreased 42.5 per cent.

The most common ground on which divorce was granted by the courts was cruel and abusive treatment, which accounted for 68.7 per cent of all the divorces granted in the period 1936 to 1960, for 47.6 per cent of all those granted to the husband in this period, and for 75.2 per cent of those granted to the wife.

The number and per cent of divorces granted for all causes, to the husband and to the wife, for the twenty-five-year period 1936 to 1960, are shown in Table 58.

**Annulled Cases.** — Among the less important classes of cases appears the term "Annulments." In 3,382 cases, or 2.3 per cent of the total number of divorces granted during the period 1936 to 1960, there was some cause shown which may have existed at the time of marriage. These cases form but a small proportion of all cases considered, and do not affect the results to any material degree.

**Duration of Marriages.** — Of the libellants to whom divorces were granted in 1960, 27.0 per cent were married less than 4 years, 51.4 per cent less than 8 years and 88.5 per cent less than 20 years.

**Table 53** — Libels for Divorces Granted, Refused, Dismissed, Contested, and not Contested, by Statutory Causes and Sex of Libellant; also Annulments: 1960.

| Libels and Libellants. | Causes. | | | | | | | | Annulments. |

| | |
|---|---|
| Number of Libels pending January 1, 1960 | 8,579 |
| Number of Libels filed during the year 1960 | 8,134 |
| Number of Divorces granted during the year 1960 | 5,592 |
| Number of Divorces refused during the year 1960 | 39 |
| Number of Libels contested during the year 1960 | 2,463 |
| Number of Libels uncontested during the year 1960 | 3,928 |
| Number of cases finally determined in 1960 | 7,812 |
| Number of petitions for annulment in 1960 | 191 |

There were 29 libels received from the Superior Court; 7,687 from the Probate Court; 2 libels discontinued; 1 decree vacated; 1 transferred; 9 petitions for affirmation of marriage; 1 libel refused and continued on docket. There were 1,316 libels dismissed under Rule 48 of the Probate Court; 5 libels dismissed under Rule 87 of the Superior Court and 13 petitions for annulment dismissed under Rule 48 of the Probate Court.

# POPULATION STATISTICS

PAGE
Introduction . . . . . 164
Estimated population . . . . . 164
Statistical tables . . . . . 165, 166

**Introduction.** — All vital statistics are based upon the population. The number of births, marriages, divorces and deaths is expressed in relation to the population, usually as rates giving the number occurring during the calendar year per 1,000 inhabitants or group of inhabitants, such as age groups, sex, nativity, race, marital condition, and occupation groups.

Information regarding population is obtained by a census enumeration, and in Massachusetts these enumerations are made every five years. The statistics for 1955 in this report are based on the State census taken as of January 1, 1955.

The population of any community or State is continually changing, in most cases increasing, and for this reason it becomes necessary to make estimates of the population for the periods between the census enumerations upon which to base rates for the various vital events, and especially for the accurate computation and expression of birth, marriage, divorce, and death rates. Such estimates are necessary for all dates except those on which the census enumerations are made, and are in all cases preferable to a repetition of the census returns for a certain year.

For non-census years the statistical tables in this book are based upon the estimated population as determined by the arithmetical method, which assumes a constant amount of increase between the census years.

**Estimated Population.** — The method of calculating estimates of population for the intercensal years is shown in the following example:

Massachusetts had a population of 5,148,578 at the Federal census of 1960 (April 1), and of 4,690,514 at the Federal census of 1950 (April 1). The increase during the intercensal period (120 months) was 458,064, and the monthly increase according to the arithmetical method of estimating population, was —

$$\frac{5{,}148{,}578 - 4{,}690{,}514}{120} = 3{,}817.2$$

The same annual increase is also assumed to occur until the next census shall have been taken. The population for July 1, 1960 is estimated by adding to the population as it existed at the preceding census (April 1, 1960), 3,817.2 for each month intervening between the date of enumeration and the date for which the estimate is desired (July 1, 1960). There being 3 months between these dates, the calculation would be

$$5{,}148{,}578 + (3 \times 3{,}817.2) = 5{,}160{,}030.$$

The census population for each municipality in the Commonwealth having over 15,000 inhabitants in 1960 is shown on next page.

Table 65

CENSUS POPULATION OF MUNICIPALITIES HAVING OVER 15,000 INHABITANTS IN 1960: 1940 TO 1960.
